Distributive Politics in Developing Countries Mark Baskin,Michael L. Power,2024-02-15 Why have efforts to strengthen quality of governance so often failed in some of the world s most troubled states Because they almost always ignore the human side of politics Drawing on his experience of working with hundreds of politicians in more than sixty countries Greg Power explores how social norms public expectations and the personal interests of MPs influence the path of political development Where states are weak politicians solve problems by going around the state From Tanzania and Nepal to Iraq and Ukraine voters actually want MPs who can find informal fixes and a reciprocal logic holds the system in place But this also means that weak institutions tend to stay weak Combining insights from behavioural economics change management and comparative politics this fascinating book argues for a different approach to political reform one concerned less with institutional design and more with the existing logic of human behaviour One that starts inside the political mind and works outwards from there   *Clients and Constituents* Jennifer Bussell,2019 Scholars of distributive politics often emphasize partisanship and clientelism However as Jennifer Bussell demonstrates in Clients and Constituents legislators in patronage democracies also provide substantial constituency service non contingent direct assistance to individual citizens Bussell shows how the uneven character of access to services at the local level often due to biased allocation on the part of local intermediaries generates demand for help from higher level officials The nature of these appeals in turn provides incentives for politicians to help their constituents obtain public benefits Drawing on a new cross national dataset and extensive evidence from India including sustained qualitative shadowing of politicians novel elite and citizen surveys and an experimental audit study with a near census of Indian state and national legislators this book provides a theoretical and empirical examination of political responsiveness in developing countries It highlights the potential for an under appreciated form of democratic accountability one that is however rooted in the character of patronage based politics   Democracy in Small States Jack Corbett,Wouter Veenendaal,2018-09-20 Populism and the personalization of politics appears to be threatening the existence of democracy as we know it all over the world It is now more important than ever to understand the history of this form of regime why it has thrives and fails But existing studies are limited by their focus on a few large and predominately rich states This book takes the opposite approach it investigates how politics is practiced in the smallest states where hyper personalization has always been a ubiquitous feature of political life It optimistically finds that hyper personalized democracy can actually persist against all odds but also cautions that political practices in small states are often markedly different to larger states Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford   *American Government* Gitelson,Alan R.
