Firm The Market And The Law:

The Firm, the Market, and the Law R. H. Coase, 2012-06-15 Few other economists have been read and cited as often as R H Coase has been even though as he admits most economists have a different way of looking at economic problems and do not share my conception of the nature of our subject Coase's particular interest has been that part of economic theory that deals with firms industries and markets what is known as price theory or microeconomics He has always urged his fellow economists to examine the foundations on which their theory exists and this volume collects some of his classic articles probing those very foundations *The Nature of the Firm* 1937 introduced the then revolutionary concept of transaction costs into economic theory *The Problem of Social Cost* 1960 further developed this concept emphasizing the effect of the law on the working of the economic system The remaining papers and new introductory essay clarify and extend Coase's arguments and address his critics These essays bear rereading Coase's careful attention to actual institutions not only offers deep insight into economics but also provides the best argument for Coase's methodological position The clarity of the exposition and the elegance of the style also make them a pleasure to read and a model worthy of emulation Lewis A Kornhauser *Journal of Economic Literature* Ronald H Coase was awarded the Nobel Prize in Economic Science in 1991 **The Firm, the**

Easterbrook, Daniel R.

Fischel, 1991-10 The authors argue that the rules and practices of corporate law mimic contractual provisions that parties would reach if they bargained about every contingency at zero cost and flawlessly enforced their agreements But bargaining and enforcement are costly and corporate law provides the rules and an enforcement mechanism that govern relations among those who commit their capital to such ventures The authors work out the reasons for supposing that this is the exclusive function of corporate law and the implications of this perspective Modern Organisational Governance David
