Gass, Arjang A. Assad, 2005 Arising from the urgent operational issues of World War II the philosophy and methodology of Operations Research OR has permeated the resolution of decision problems in business industry and government This work recounts the evolution of OR as the science of decision making It chronicles the history of OR in the form of expository entries On a Functional Equation Occurring in the Theory of Dynamic Programming Richard Bellman, 1952 Consideration is given to a functional equation which arises in connection with dynamic programming problems involving non linear utility functions Author *Computational Problems in the Theory of Dynamic Programming* Richard Bellman, 1953 A number of representative approximation techniques in the theory of dynamic programming are illustrated in a discussion of a functional equation *Some Vistas of Modern Mathematics* Richard Bellman, 2014-07-15 Rapid advances in the physical and biological sciences and in related technologies have brought about equally farreaching changes in mathematical research Focusing on control theory invariant imbedding dynamic programming and quasilinearization Mr Bellman explores with ease and clarity the mathematical research problems arising from scientific questions in engineering physics biology and medicine Special attention is paid in these essays to the use of

the digital computer in obtaining the numerical solution of numerical problems its influence in the formulation of new and old scientific problems in new terms and to some of the effects of the computer revolution on educational and social systems The new opportunities for mathematical research presage Bellman concludes a renaissance of mathematics in human affairs by involving it closely in the problems of society
