Economics March Common Test 2014 Grade 12 Question Paper:

Under the Bus Caroline Fredrickson, 2010-01-12 Did you think you knew the facts about women and work Think again a terrific book utterly gripping Peter Edelman author of *So Rich So Poor* For women in professional and corporate jobs much of the discrimination and inequity faced in the past has been confronted and at least to some extent conquered But the fact is that we have a two tiered system where some working women have a full panoply of rights while others have few or none at all We allow blatant discrimination by small employers Domestic workers are cut out of our wage and overtime laws Part time workers disproportionately women are denied basic benefits Laws have been written through a process of compromise and negotiation and in each case vulnerable workers were the bargaining chip that was sacrificed to guarantee the policy's enactment For these workers the system that was supposed to act as a safety net has become a sieve and they are still falling through Caroline Fredrickson is a powerful advocate and DC insider who has witnessed the legislative compromises that leave out temps farmworkers staff at small businesses immigrants and others who fall outside an intentionally narrow definition of employees The women in this fast growing part of the workforce are denied minimum wage maternity leave health care the right to unionize and protection from harassment and discrimination all within the bounds of the law If current trends continue their fate will be the future of all American workers An informative occasionally shocking exploration of the state of women's rights in the workplace Kirkus Reviews
