*Falling in Love with America Again* Senator Jim DeMint,2014-03-04 Serving within the supposed pinnacles of power as a respected and influential U S Senator from South Carolina Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever bigger government is the solution to the nation s problems In his new role as president and CEO of The Heritage Foundation Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country s course of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations He realized that he and all of us as fellow citizens must fall in love with America again In this book DeMint illustrates why Americans must rediscover the power ingenuity and creativity of our little platoons He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way recounting example after example of how they re working together locally in what he calls the little platoons the families churches communities and voluntary organizations succeeding on the model that smaller is better They are the hands on citizens who make America the exceptional caring and can do country it has always been DeMint illustrates why each of us regardless of political party age race religion or ethnicity must rediscover the power we represent The country s future is at risk not just because of constant pressure from the Bigs big government big banks big labor big Wall Street cronies etc but because so many of us fear it s too late to solve problems so huge and seemingly intractable Jim DeMint is here to reassure us that this is not true In riveting yet plainspoken style he tells real life success stories and educates us via logical historical and fact based explanations of the issues education taxation regulation poverty labor health care environmentalism Federalism and more He affirms the compelling truth that conservative ideas are really American ideas and they must guide us as we turn our institutions upside down taking them from the top down centrally controlled bureaucracies they ve become back to the bottom up democratic framework the Constitution intended Through this heartfelt fascinating and inspiring look inside the America of both yesterday and today and the everyday citizens who are working tirelessly and selflessly to insure its future fulfills the promise of its beginnings Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together FALLING IN LOVE WITH AMERICA AGAIN **Hello World**

Hannah Fry,2018-09-06 One of the best books yet written on data and algorithms deserves a place on the bestseller charts The Times You are accused of a crime Who would you rather determined your fate a human or an algorithm An algorithm is more consistent and less prone to error of judgement Yet a human can look you in the eye before passing sentence Welcome to the age of the algorithm the story of a not too distant future where machines rule supreme making important decisions in healthcare transport finance security what we watch where we go even who we send to prison So how much should we rely on them What kind of future do we want Hannah Fry takes us on a tour of the good the bad and the downright ugly of the algorithms that surround us In Hello World she lifts the lid on their inner workings demonstrates their power exposes their limitations and examines whether they really are an improvement on the humans they are replacing A BBC RADIO 4 BOOK OF THE WEEK SHORTLISTED FOR THE 2018 BAILLIE GIFFORD PRIZE AND 2018 ROYAL SOCIETY SCIENCE BOOK PRIZE

**The Years That Matter Most** Paul Tough,2019-09-12 What has gone wrong in our universities And how do we make it right When Amy applied to university she thought she d be judged purely on her merits But she never thought that her family background would have as much impact on her future as her grades When KiKi arrived at university she knew she could be the only black woman in her class But she didn t know how out of place she would feel nor how unwelcoming her peers would be When Orry graduated from university he was told he d probably land a six figure salary But he wasn t told he d end up barely scraping a living wage struggling to feed his children Drawing on the stories of hundreds of American students The Years That Matters Most is a revelatory account of a university system in crisis Paul Tough bestselling author of How Children Succeed exposes a world where small town colleges go bust while the most prestigious raise billions every year where overstretched admissions officers are forced to pick rich candidates over smart ones where black and working class students are left to sink or swim on uncaring campuses Along the way he uncovers cutting edge research from the academics leading the way to a new kind of university one where students succeed not because of their background but because of the quality of their minds The result is a call to arms for universities that work for everyone and a manual for how we can make it happen

**Students at Risk of School Failure** José Jesús Gázquez,José Carlos Núñez,2018-10-18 The main objective of this Research Topic is to determine the conditions that place students at risk of school failure identifying student and context variables In spite of the fact that there is currently little doubt about how one learns and how to teach in some countries of the developed world there is still there is a high rate of school failure Although the term school failure is a very complex construct insofar as its causes consequences and development from the field of educational psychology the construct student engagement has recently gained special interest in an attempt to deal with the serious problem of school failure School engagement builds on the anatomy of the students involvement in school and describes their feelings behaviors and thoughts about their school experiences So engagement is an important component of students school experience with a close relationship to achievement and school failure Children who self set academic goals attend school regularly and on time

behave well in class complete their homework and study at home are likely to interact adequately with the school social and physical environments and perform well in school In contrast children who miss school are more likely to display disruptive behaviors in class miss homework frequently exhibit violent behaviors on the playground fail subjects be retained and if the behaviors persist quit school Moreover engagement should also be considered as an important school outcome eliciting more or less supportive reactions from educators For example children who display school engaged behaviors are likely to receive motivational and instructional support from their teachers The opposite may also be true But what makes student engage more or less The relevant literature indicates that personal variables e g sensory motor neurodevelopmental cognitive motivational emotional behavior problems learning difficulties addictions social and or cultural variables e g negative family conditions child abuse cultural deprivation ethnic conditions immigration or school variables e g coexistence at school bullying cyberbullying may concurrently hinder engagement preventing the student from acquiring the learnings in the same conditions as the rest of the classmates
