experts and emerging authorities on children's rights Murray Blue Swadener and Smith have produced this highly significant textbook on young children's rights globally. Containing sections on policy along with rights to protection provision and participation for young children, this book combines discussions of children's rights and early childhood development and investigates the crucial yet frequently overlooked link between the two. The authors examine how policy practice and research could be utilised to address the barriers to universal respect for children to create a safer and more enriching world for them to live and flourish in. The Routledge International Handbook of Young Children's Rights is an essential resource for students and academics in early childhood education, social work and paediatrics as well as for researchers, policymakers, leaders and practitioners involved in the provision of children's services and paediatric healthcare and international organisations with an interest in or ability to influence national or global policies on children's rights.

**Disrupting and Countering Deficits in Early Childhood Education** Fikile Nxumalo, Christopher P. Brown, 2019-08-15 This powerful edited collection disrupts the deficit-oriented discourses that currently frame the field of early childhood education. ECE and illuminates avenues for critique and opportunities for change. Researchers from across the globe offer their insight and expertise in challenging the logic within ECE that often frames children and their families through gaps, risks and deficits across such issues as poverty, language, developmental psychology, teaching and learning. Chapters propose practical responses to these manufactured crises and advocate for democratic practices and policies that enable ECE programs to build on the wealth of cultural and personal knowledge children and families bring to the early learning process. Moving beyond a dependence on deficits, this book offers opportunities for scholars, researchers and students to consider their practices in early education and develop their understanding of what it means to be an educator who seeks to support all children.

**Child Marriage, Rights and Choice** Hoko Horii, 2021-11-18 This book addresses the issue of agency in relation to child marriage. In international campaigns against child marriage, there is a puzzle of agency. While international human rights institutions celebrate girls' exercise of their agency not to marry, they do not recognize their agency to marry. Child marriage, usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age, is normally considered as forced, which is to say that it is assumed that they are not capable of consenting to marriage. This book, however, re-examines this assumption through a detailed socio-legal examination of child marriage in Indonesia. Eliciting the multiple competing frameworks according to which child marriage takes place, the book considers the complex reasons why children marry. Structural explanations such as lack of opportunities and oppressive social structures are important but not exhaustive explanations. Exploring the subjective reasons by listening to children's perspectives, their stories show that many of them decide to marry for love, desire to belong to the community and for new opportunities and hopes. The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency. One that cannot but fail to respect and promote the agency of all regardless of gender, race

religion and age This book will be of interest to scholars students and practitioners in the areas of children s rights legal anthropology and socio legal studies *The Rights of Children in Ethiopia* Alula Pankhurst,Yeraswork Admassie,Yitayew Alemayehu,2016 *Secondary Data Analysis and Literature Review of Knowledge, Attitude, Beliefs and Practices (KABP) Study of the 10 Key Child Survival, Development and Protective Behaviours in Kenya* ,2016 **Denver Journal of International Law and Policy** ,2013 *Medical and Health Care Books and Serials in Print* ,1986 Annual Report of the Special Representative of the Secretary-General for Children and Armed Conflict United Nations. *Higher Education for Democratic Innovation* Sjur Bergan,Tony Gallagher,Ira Harkavy,2015 Democracy is increasingly the standard against which societies are measured The term democratic culture designates the set of attitudes and behaviours that citizens need to have for democratic institutions and laws to function in practice This is an important development from older perceptions of democracy which focused on institutions laws and procedures It is a recognition that democracy will not function unless citizens want it to function In all countries there are committed individuals aspiring to make their societies better democracies As the Secretary General of the Council of Europe Thorbj rn Jagland has said on several occasions our societies seek to address 21st century issues through 19th century institutions Through contributions by authors from Europe North America and other parts of the world this book explores how higher education can help find new ways to develop commitment to public space and societal engagement and make democracy more vibrant **Municipal Journal and Public Works** ,1914 **Towards Universal Social Protection** Simone Cecchini,Fernando Filgueira,Rodrigo Martínez,Cecilia Rossel Odriozola,2015 This book reflects on the public policies programmes and regulatory frameworks that are taking a rights based approach to expanding social protection coverage and benefits in Latin America with a view to achieving universal coverage Its discussion of the policy tools and programmes pursued in the region aims to provide the reader with technical and programmatic insights for assembling and coordinating public policies within consistent and sustainable social protection systems The combination of normative orientations and stock of technical knowledge together with advances regarding the rights based approach to social protection within a life cycle framework afford the reader not only a tool box of specific social protection instruments but also an in depth examination of related political economy aspects
