Design & Plan a Solar System Students can use an index for building projects. Once students have completed their projects, have them present their projects!	Design & Plan a House Students can use an index for building projects. Once students have completed their projects, have them present their projects!
Build Shadow Projects Create shadow problems using materials such as sticks, foil, paper, shadow puppets, and flashlights.	Design a Shadow Play Students can use an index for building projects. Once students have completed their projects, have them present their projects!	Design a Villa Students can use an index for building projects. Once students have completed their projects, have them present their projects!
Design & Experiment Have students create a science challenge. What happens?	Design a Experiment Have students use an index for building projects. Once students have completed their projects, have them present their projects!	Build a Project Students can use an index for building projects. Once students have completed their projects, have them present their projects!

Students will begin the day with five projects of learning on a set goal for them. They will learn how to use a compass to find directions, how to make a model airplane, learn about weather, learn about the solar system, and learn about engineering. Students will work with their groups to complete these projects. Once all projects are completed, students will present their projects to the class. Students will receive a certificate for each project completed and a badge for each project presented. Students will receive a ribbon for each project completed and a badge for each project presented. Students will receive a ribbon for each project completed and a badge for each project presented. Students will receive a ribbon for each project completed and a badge for each project presented. Students will receive a ribbon for each project completed and a badge for each project presented.
