Social Work Supervision in Practice Bessie Kent, 2014-05-15 Social Work Supervision in Practice deals with the problems and process of social work supervision This book teaches social work supervision by adapting general education principles to certain educative tasks and problems The lessons contained involve teaching and helping when casework and supervision are analyzed together The book presents how casework analysis is also teaching and how supervision is enabling and transferring skills and knowledge to the student Still the author relies on generalizations acquired from actual and individualized social work in the field Case studies and records are presented and

discussions of theory are secondary to actual records of supervision. Different cases are given as examples showing the process of recording analysis of the student's skills and monitoring of progress to the minimum required professional standards. The use of the student's recording practice as a teaching aid is then explained. The supervisor-tutor relationship toward the student is analyzed for the tutor's objective is to be an educator. More clarification on the problem of their roles is then explained. This reference is suitable for social workers, public service administrators and to some extent for public health workers who interact with members of the community. *Supervision in Social Case Work* Virginia Pollard Robinson, 1936

MANAGEMENT AND SUPERVISION OF SOCIAL WORKERS, 2019 **Effective Supervision in Social Work** Kate Howe, Ivan Gray, 2012-11-19 It is vital that social work managers and leaders are able to deliver and manage effective supervision to their teams. Recent social work reports such as the Munro Review into Child Protection 2011 identified poor supervision as a barrier to good and effective social work practice and highlighted the need for quality supervision to become embedded within departments. This book demonstrates how both managers and their staff can engage with supervision with a view to successful outcomes. There are detailed sections on audit tasks and reflection questions to enable readers to increase awareness of their role as well as develop action plans for improvement in their practice. *Supervision in Social Work* Liz Beddoe, Jane Maidment, 2017-10-02 Supervision is currently a hot topic in social work. The editors of this volume both social work educators and researchers believe that good supervision is fundamental to the development and maintenance of effective practice in social work. Supervision is seen as a key vehicle for continuing development of professional skills, the safeguarding of competent and ethical practice and oversight of the wellbeing of the practitioner. As a consequence the demand for trained and competent supervisors has increased and a perceived gap in availability can create a call for innovation and development in supervision. This book offers a collection of chapters which contribute new insights to the field. Authors from Australia and New Zealand where supervision inquiry is strong offer research informed ideas and critical commentary with a dual focus on supervision of practitioners and students. Topics include external and interprofessional supervision, retention of practitioners, practitioner resilience and innovation in student supervision. This book will be of interest to supervisors of both practitioners and students and highly relevant to social work academics. This
