## **Introduction to Container Ship Operations and Onboard Safety**

Alexander Arnfinn Olsen, 2022-03-06 Introduction to Container Ship Operations and Onboard Safety is an introduction for students and professionals involved in the maritime industry. It provides an overview of the merchant navy from its beginnings to the present day entry and training requirements, shipboard hierarchy and roles and responsibilities, shipboard safety organisation inductions and new crew member familiarisation, safe means of access to enclosed spaces, general housekeeping, risk assessment and risk management. In addition, it examines specific hazardous activities such as cargo loading and unloading, drydocking drills and actions to take in the event of an emergency. This textbook provides a concise overview of core concepts and practices in the maritime industry that is appropriate for the cadet, experienced seafarer, industry professional and the general maritime enthusiast. *Lloyd's Register Technical Association Session 1976-1977*

Lloyd's Register Foundation, 1976-01-01 The Lloyd's Register Technical Association (LRTA) was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's Register Publications. These publications have consistently been released on a yearly basis with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LR's competitive advantage. Today, the LRTA takes a fresh approach focusing on collaboration by combining professional expertise from across the LRF Group to ensure a frequent output of fresh perspectives and relevant content. The LRTA has evolved into a Group-wide initiative that identifies, captures and shares knowledge spanning various business streams and functions. To support this modern approach, the LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LR Foundation. The Lloyd's Register Technical Association Papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LR Technical Association. The Lloyd's Register Staff Association (LRSA) changed its name to the Lloyd's Register Technical Association (LRTA) in 1973. **Container**
