Handbook of Industrial Surfactants Ash Michael, Ash Irene, 2022-02-23 Originally published in 1993, over 16,000 tradename surface active agents for industrial applications manufactured worldwide are contained in this edition. General use surfactants such as emulsifiers, wetting agents, foaming agents, detergents, dispersants, and solubilizers are included, as well as detergent raw materials, defoamers, and antifoaming agents. The types and quantities of surfactants available commercially are numerous, and the difficulty in making choices between products may become overwhelming.
