The Magic Years Selma H. Fraiberg, 2015-05-05 A pioneering work on early childhood development that is as relevant today as when it was first published 60 years ago To a small child the world is an exciting but sometimes frightening and unstable place In *The Magic Years* Selma Fraiberg takes the reader into the mind of the child showing how he confronts the world and learns to cope with it With great warmth and perception she discusses the problems at each stage of development and reveals the qualities above all the quality of understanding that can provide the right answer at critical moments **Life**

Witness T. Byram Karasu, 2013-10-22 In *Life Witness* Evolution of the Psychotherapist T Byram Karasu demonstrates how a young therapist can become an expert clinician by transcending his own school of therapy Every young therapist attempts to perfect his skills by anchoring onto a single paradigm and becoming an expert technician of that particular school Within the first five to ten years of practice the so called experiential evolution phase the therapist finds that no single paradigm is suitable for treating all psychopathology The therapist thus begins to appropriate techniques from other schools of psychotherapy and by shifting paradigms synchronizes himself with the patient's mind It is from this synchronization that all his techniques begin to evolve and an expert clinician can evolve into a master psychotherapist The therapist who has transcended his school of psychotherapy now must transcend the field of psychotherapy itself If he wants to address the patient's existential issues as well the therapist first has to come to terms with those issues himself After all the therapist can take the patient only so far as he himself has come *Life Witness* demonstrates that this formative evolution phase of a therapist encompasses a broad education in literature philosophy and spirituality Karasu ultimately concludes that therapists must find the meaning and purpose of life before they can cultivate an authentic self and become someone whose presence is itself therapeutic Once this occurs all therapeutic messages will naturally emanate from within **The Childhood Roots of**
