The Mainstreaming Of New Age:

The New Age Movement Margrethe Løøv, 2024-10-02 This Element introduces New Age religion The New Age Movement is a loosely cohesive conglomerate of different spiritual currents with no common founder leader institution dogma or scripture Because of its diversity it may appear amorphous and incoherent at first sight This Element emphasizes both the unity and diversity of the New Age It approaches the phenomenon from three main perspectives 1 the historical development of New Age religion 2 ideas and practices associated with the New Age and 3 the social organization of the New Age movement It thus provides a wide angle view that sketches out some of the main patterns that emerge from a mosaic of individual currents and actors associated with the New Age It also highlights some of the differences within the movement by exploring some ideas and practices in depth

The New Age in Glastonbury Ruth Prince, David Riches, 2001-01-01 The New Age movement is a twentieth century socio cultural phenomenon in the Western world with Glastonbury as one of its major centers Through experimenting with a number of ways of analyzing this movement the authors were able to develop a novel theory of social religious movements of broad applicability Based around contradictions relating to such central anthropological concepts as *communitas* egalitarianism individualism holism and autonomy it reveals the processes by which having abandoned a mainstream lifestyle people come to build up a counter culture way of life Drawing on their own work on tribal shamanistic religions the authors are able to point out interesting similarities between the latter and the Glastonbury New Age movement Not only that their model allows them to explain such wide ranging social and religious movements as the Hutterites the Kibbutz and Green communes In fact the authors argue these movements may be regarded as variations of the Glastonbury type

The Mainstreaming of New Age Manuel Vasquez, 1998-01-01 *Religion and the Culture of Print in Modern America* Charles L. Cohen, Paul S. Boyer, 2008-07-09 Mingling God and Mammon piety and polemics and prescriptions for this world and the next modern Americans have created a culture of print that is vibrantly religious From America's beginnings the printed word has played a central role in articulating propagating defending critiquing and sometimes attacking religious belief In the last two centuries the United States has become both the leading producer and consumer of print and one of the most identifiably religious nations on earth Print in every form has helped religious groups come to grips with modernity as they construct their identities In turn publishers have profited by swelling their lists with spiritual advice books and scriptures formatted so as to attract every conceivable niche market Religion and the Culture of Print in Modern America explores how a variety of print media religious tracts newsletters cartoons pamphlets self help books mass market paperbacks and editions of the Bible from the King James Version to contemporary Bible zines have shaped and been shaped by experiences of faith since the Civil War Edited by Charles L. Cohen and Paul S. Boyer whose comprehensive historical essays provide a broad overview to the topic this book is the first on the history of religious print culture in modern America and a well timed entry into the increasingly prominent contemporary debate over the role of

Christopher D. Tirres, 2024-12-03 A new perspective on spirituality and social change as seen through the work of six visionary thinkers In *Liberating Spiritualities* Christopher D Tirres offers an in depth exploration of spirituality as a catalyst for social transformation showcasing the profound insights of six distinguished twentieth century liberation thinkers from across the Americas This thought provoking work examines the contributions of Marxist philosopher Jos Carlos Mariategui renowned educator and philosopher Paulo Freire innovative constructive theologian Virgilio Elizondo influential cultural and feminist theorist Gloria Anzaldúa activist mujerista theologian and social ethicist Ada María Isasi Díaz and groundbreaking ecofeminist theologian Ivone Gebara Tirres examines the distinct yet interconnected philosophies of these figures showcasing their unified critique of colonial Christendom and their deep commitment to the marginalized He adeptly articulates how their diverse religious and philosophical backgrounds come together in a shared vision of spirituality as a fundamental aspect of human life and intelligence He further illuminates how these thinkers advocate for spirituality as a non reductive life affirming practice transcending traditional boundaries and offering an integrated approach to faith culture and social justice Their collective insights form a persuasive case for re envisioning spirituality as a crucial element in the quest for a more just and compassionate world *Liberating Spiritualities* is not only a tribute to these six influential figures but also a critical reflection on the relevance of their ideas in today's global context Tirres's transdisciplinary study bridges liberationist and pragmatic insights offering readers a fresh highly original interpretation of socially engaged spirituality making this book an essential resource for those seeking to understand the transformative power of spirituality in the pursuit of social justice and human dignity *Ancient Empires of the New Age* Paul DeParrie, Mary Pride, 1989 Shows why ancient empires based on new age beliefs grew and then died traces the outbreak of New Age thinking in America and other Western nations *Beyond New Age* Steven Sutcliffe, Marion Bowman, 2000 *Beyond New Age* is a study of alternative religions It addresses the history growth content context and significance of such phenomena *New Age Journal*, 1997

Introduction to New and Alternative Religions in America: Metaphysical, New Age, and neopagan movements Eugene V. Gallagher, W. Michael Ashcraft, 2006 Annotation Most new or alternative religious are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and

are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension and fear. Here experts delineate the boundaries and examine the various groups, beliefs, movements and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today.

Volume 1 *History and Controversies* discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved.

Volume 2 *Jewish and Christian Traditions* explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined.

Volume 3 *Metaphysical New Age and Neopagan Movements* looks at Shamanism, Spiritualism, Wicca and Paganism among other movements as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood.

Volume 4 *Asian Traditions* focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshiping in the U.S. today.

Volume 5 *African Diaspora Traditions and Other American Innovations* examines the various traditions linked to the African diaspora, such as Rastafarianism, Santeria and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions and Heaven's Gate. Some of the new and alternative religions covered in these pages include Shamanism, Wicca, Black Israelites, Santeria, Scientology, Elan Vital, Hare Krishna, Soka Gakkai and many more.

Anthropos, 1999 Cult and Countercult Gini Graham Scott, 1980-05-21 **Contemporary New Age Transformation in Taiwan** Shuquan Chen, 2008. The first comprehensive analysis in English of the social dimension of Taiwan's New Age movements; this work employs a qualitative approach to test the ideas that underlie many sociological accounts of New Age phenomena and late modernity for the purpose of explaining the movement's distinctive path of development. **Revealing the New Age Jesus** Douglas R. Groothuis, 1990 *Religious Seekers and "finding a Spiritual Home"* Thomas Kingsley Brown, 2000 **Mainstream**, 2003 **Cosmologies of Suffering** Agita Lūse, Imre Lazar, 2007. The edited volume elaborates on a range of themes that emerged during a workshop of the 8th biennial of the European Association of Social Anthropologists in Vienna in 2004. Among these themes are the paradoxical permanence of transition in post-communist countries, the accompanying persistence of social suffering and the structural conditions that give rise to it. A final theme focuses on the resources that people mobilize to cope with suffering and trauma. Ways of coping manifest a stance towards agency shared by sufferers from diverse post-communist regions such as ethnically divided Croatia, politically and

economically unstable Zimbabwe relatively more peaceful countries such as Hungary Poland and Slovenia and finally two religiously unique areas in Siberia Russia Ethnographic accounts from these diverse settings testify that agency has often involved relinquishing reliance on one's self and turning towards a power higher than the self whether this is conceptualized through the lens of transcendence religion or cosmology This is a fascinating new series of ethnographic studies of specific mostly Eastern European and ex Soviet mystically orientated communities grappling with existential issues of suffering and meaninglessness Following the collapse of Soviet hegemonic communism and the well known revitalisation of traditional and New Age worldviews many people have embraced alternative cosmologies to generate new identities and meanings that are not dependant on empirically derived positivistic perspectives This book is major theoretical and ethnographically based contribution to understanding the profound social and personal transformations of worldviews and lived practices that have subsequently developed Professor Iain Edgar Senior Lecturer in Social Anthropology University of Durham UK

America in the Seventies Beth L. Bailey, 2004 The seventies witnessed economic decline in America coupled with a series of foreign policy failures events that created an air of unease and uncertainty This volume examines the ways in which Americans responded to a changing world and sought to redefine themselves
