In this book over 40 contributors collectively tune in to how sound and its absence can function as a source of power that enables isolation control and harm as well as connection healing and resistance Sound and Detention explores soundscapes in places processes and systems of confinement in order to better understand experiences of imprisonment and to imagine alternatives to the carceral state Bringing together over 40 contributors from five continents the book tunes in to some of the manifold effects associated with the presence and absence of sound and music in prisons and places of detention from isolation harm and control to connection healing and resistance Scholarly texts feature alongside poetry dialogue memoir

and experimental creative writing as well as a diverse collection of audio productions on the book's accompanying website. This plurality of form mediates the voices of artists, activists, thinkers, and practitioners, some themselves currently or formerly incarcerated. Through deep engagement with the sonic realm and with questions of power, the contributors explore what it might mean to listen nearby, making space to hold distinct perspectives and positionalities in respectful simultaneity while also amplifying resonances between sound listening and broader questions of epistemic and social justice.

**The Publishers Weekly**, 1978    **Why Are So Many Black Men in Prison?** Demico Boothe, 2007. African American males are being imprisoned at an alarming and unprecedented rate. Out of the more than 11 million black adult males in the U.S. population, nearly 1.5 million are in prisons and jails, with another 3.5 million more on probation or parole or who have previously been on probation or parole. Black males make up the majority of the total prison population and, due to either present or past incarceration, is the most socially disenfranchised group of American citizens in the country today. This book, which was penned by Boothe while he was still incarcerated, details the author's personal story of a negligent upbringing in an impoverished community, his subsequent engagement in criminal activity, drug dealing, his incarceration, and his release from prison and experiencing of the crippling social disenfranchisement that comes with being an ex-felon. The author then relates his personal experiences and realizations to the seminal problems within the African American community, federal government, and criminal justice system that cause his own experiences to be the same experiences of millions of other young black men. This book focuses on the totality of how and why the U.S. prison system became the largest prison system in the world and is filled with relevant statistical and historical references and controversial facts and quotes from notable persons and sources.
