The Outlaws Making Of America:

Making American Industry Safe for Democracy Jeffrey Haydu, 1997 In *Making American Industry Safe for Democracy* a work of historical sociology Jeffrey Haydu explores how basic political and economic relationships were restabilized in the aftermath of the war Haydu compares U S efforts to reconstruct an open shop regime that excluded trade unions with the reform of industrial relations in Britain and Germany Then he compares industries within the United States and traces the extraordinarily complex manner in which prewar class relations and wartime crisis led the state to restructure employee representation In this important study of new strategies for managing work and conflict that were emerging by the 1920s the author also forces us to reassess the role of organization in shaping working class mobilization and protest Shakespeare, from an American Point of View George Wilkes, 1882 *Making Americans* Gary D. Schmidt, 2013-12 *Making Americans* is a study of a time when the authors and illustrators of children s books consciously set their eyes on national and international sights with the hope of bringing the next generation into a full sense of citizenship Schmidt examines the literature for young people published during a momentous period in our nation s past and documents in detail its role as an instrument of nation building and social reform A thought provoking contribution to our understanding of children s books as cultural transmitters and transformers **American Drama** Clive Bloom, 1995-08-15 Influenced by Ibsen and Strindberg American drama had its origins in small theatre companies and groups of semi professional players in the early 1900s whose commitment was to inspire such writers as Eugene O Neill Susan Glaspell Imamu Amiri Baraka Arthur Miller and Tennessee Williams Born into this century American drama has acted both as a reflection and as a commentary on the dominance power and sometimes corruption of the American democratic dream Today American theatre still challenges its audiences with a powerful voice unknown to television and commercial film bringing to the fore issues of gender colour and political oppression This collection of specially written essays offers a comprehensive introduction to the subject for students wishing to familiarise themselves with this exciting field and those already involved with the current debate in the area will welcome the broad approach adopted by this volume **The Prairie and the Making of Middle America** Dorothy Anne Dondore, 1926
