China while the future inventor of paper watches The paper universe assembled by the wasp teems with both destructive and creative forces mimicking the demands of the life cycle Its beautiful surface becomes the springboard for the invention of paper and the transformation of writing The poems in the first section concerned with speaking reading writing printing and healing have at their core the mystery of creativity The second section of The Paper Wasp looks beneath the papery surface of the nest to explore the connection between physical and figurative birth as Cader mines the descent into the unknown that characterizes both pregnancy and creative work And in Internal Exile the long poem that forms the third section of the book Cader addresses the destructive power in the nest through the life of Eugenia Ginzburg the Soviet writer imprisoned by Stalin for refusing to denounce a colleague s book Faced with the loss of both her children and her country Ginzburg turned to writing as the medium through which she could bear witness to her brutal physical exile and her inner psychic triumph Cader s voice moves effortlessly from the physical to the metaphysical yoking them with verbal wit and vibrant imagery The Paper Wasp marks a new lyric inquiry into the meanings of creativity conception and birth and their relationships to writing
