language English abstract The goal of this Master s thesis is to examine the relationship between managerial OR and
business model innovations BMIs in established organizations In order to meet the complexity of the topic this thesis is
focused on factors that hinder or help managers in recognizing business opportunities Focusing on incumbent firms this
paper conducts further research to identify the main influencing factors including challenges vulnerabilities and obstacles
The thesis is divided into six parts starting with a brief description of the research topic including the problem position and
objective Second a literature review is conducted to summarize the state of research including theoretical foundations In
today s scientific literature the two fields of research BMI OR are by no means treated independently from each other For the
time being BMI and OR are considered independently of each other It is then shown exactly how current literature treats
managerial OR with respect to BMI The results are then synthesized into a summary highlighting what is known and not
known The areas of controversy in the literature are identified and questions are formulated that need further research The
third part of the thesis consists of expert interviews Derived from the literature review a guideline for interviews is developed
to treat the research gaps in an appropriate way and to meet the complexity of the task setting The explorative survey aims
to identify the challenges and drivers of managerial OR in BMI and to identify approaches that have not yet been addressed
in scientific literature to a significant extent The core of the analysis is the splitting of the BM into the elements value
proposition value creation and value capture This ensures that all the facets of a company s BM are accurately addressed and
form the basis for high quality results In order to cover a broad range the paper does not focus on a certain industry The
interviews are conducted with an array of decision makers in organizations that have attempted or are currently attempting
to innovate their BM at the business unit level or the corporate level **The Quarterly Journal of Pure and Applied**
