The Past In French History

Christine Ann Evans

The Past In French History:

The Past in French History Robert Gildea, 1994 This fascinating book offers a new perspective on French history and political culture by examining how the commemoration of the past pervades French public life The book surveys the ways that various political communities in France during the past two centuries proponents of revolution and counterrevolution church and state centralism and regionalism and national identity and nationalism have used different versions of the past in order to define their identities and legitimate their goals Never before have the competing constructions of the past been examined in a single volume with such erudition and panache Gildea deals with his subject theoretically but he intertwines his themes with dexterity and originality Douglas Johnson Times Literary Supplement Imagining the Past in France Elizabeth Morrison, Anne D. Hedeman, J. Paul Getty Museum, 2010-12-07 This exquisite volume beautifully reproduces and insightfully examines the most important illuminations found in French history manuscripts The French Historical Narrative and the Fall of France Christine Ann Evans, 2022-07-18 The fall of France in June 1940 La Débâcle posed a challenge to France's understanding of itself Could the existing sacred narrative of French history established by the Third Republic hold in the face of the defeat of France's military and political systems both built upon its foundations The French Historical Narrative and the Fall of France Simone Weil and her Contemporaries Face the Debacle focuses on assessments of the Debacle and places Simone Weil's writings of 1938 to 1943 within this continuum This study recreates the debate in those fraught years to posit a horizon of expectations within which to place and better appreciate Simone Weil's writing of the period far reaching and bold but hardly crazy as De Gaulle is said to have characterized her ideas **The history of France, tr. by R. Black. (Vol. 6-8 ed. by madame de Witt).** François Pierre G. Guizot, 1876 **The Old French**

Chronicle of Morea Anne Van Arsdall, Helen Moody, 2018-12-07 Numerous Byzantine and Western sources describing the events of the Fourth Crusade have now been translated into English However the same is not true for material on Frankish Greece despite this region's importance to late medieval crusading The Chronicle of Morea is the key source for the history of the Frankish states established in Greece after the conquest of Constantinople in 1204 and their relations with the reviving Byzantine Empire during the 13th century It is also an important source for the growth of the Venetian maritime empire Most of the action centers on the Peloponnesus then called Achaia or Morea where crusaders William of Champlite and Geoffrey of Villehardouin nephew of the famous chronicler established a principality and the Villehardouins a dynasty Preserved in a unique fourteenth century manuscript the Old French version of the Chronicle of Morea is a contemporary account of Frankish feudal life transposed onto foreign soil It describes clashes conquests and ransoms between the Franks and Byzantines as well as their alliances and arranged marriages A rich source the Chronicle of Morea brims with anecdotes giving insight into the operation of feudal justice the role of noble women in feudal society the practice of chivalry and the conduct of warfare Versions of the Chronicle exist in Aragonese Greek and Italian as well as in Old French However this is

the first translation into English or any other modern language of the Old French text thus opening its content to a wider audience Romancing the Past Gabrielle M. Spiegel, 1993 Reading Spiegel's book is like seeing the scattered pieces of a jigsaw puzzle of history and literature suddenly assembled in a dazzling new image a picture that could not have been made without the master piece the manuscript that Professor Spiegel was the first person in almost 800 years to read and interpret Her effort is a tour de force of no mean proportion Stephen G Nichols Jr author of Romanesque Signs *The Faces of Time* Jean Blacker, 2014-06-30 The twelfth century witnessed the sudden appearance and virtual disappearance of an important literary genre the Old French verse chronicle These poetic histories of the British kings which today are treated as fiction were written contemporaneously with Latin prose narratives which are regarded as historical accounts In this pathfinding study however Jean Blacker asserts that twelfth century authors and readers viewed both genres as factual history Blacker examines four Old French verse chronicles Gaimar's *Estoire des Engleis* c 1135 Wace's *Roman de Brut* c 1155 and *Roman de Rou* c 1160 1174 and Benoît de Sainte Maure's *Chronique des Ducs de Normandie* c 1174 1180 and four Latin narratives William of Malmesbury's *Gesta Regum* c 1118 1143 and *Historia Novella* c 1140 1143 Orderic Vitalis's *Historia Ecclesiastica* c 1118 1140 and Geoffrey of Monmouth's *Historia Regum Britanniae* c 1138 She compares their similarity in three areas the authors' stated intentions their methods of characterization and narrative development and the possible influences of patronage and audience expectation on the presentation of characters and events This exploration reveals remarkable similarity among the texts including their idealization of historical and even legendary figures such as King Arthur It opens fruitful lines of inquiry into the role these writers played in the creation of the Anglo Norman regnum and suggests that the Old French verse chronicles filled political psychic and aesthetic needs unaddressed by Latin historical writing of the period
