

A black and white photograph of a snowy winter landscape. In the foreground, a smooth, snow-covered path or clearing leads towards a line of bare, snow-laden trees. The trees' branches are intricate and dark against the bright, snowy background. The overall mood is quiet and serene.

Walt Whitman Newsletter, 1976 *American and British Poetry* Harriet Semmes Alexander, 1984 **Three Voices from Paumanok** Joan D. Berbrich, 1969 **Pushcart Prize XXX** Bill Henderson, 2005-11 A collection of short stories essays and poems culled from small presses and literary journals *Taking Measure* Bernard E. Morris, 2003 *Taking Measure* surveys the entire writing career of X J Kennedy from his first collection of poetry *Nude Descending a Staircase* to his latest collection *The Minimus Poems* Beginning with a study of the way Kennedy designs his poetry to reflect the poem's subject and tone the book then traces Kennedy's poetic development through each of his poetry publications Concluding the book is a chronology of Kennedy's life and writing history a discussion of the influences on Kennedy's work a list of his publications and of the titles of his poetry and a selected bibliography *The Magazine of Poetry and Literary Review*, 1889 *The Complex Image* Joseph Fichtelberg, 2016-11-11 In *The Complex Image* Joseph Fichtelberg takes a twofold approach to the role of revision in significant American autobiographies He reexamines the problem of the autobiographical subject from a poststructuralist perspective and he places that problem in the context of American culture As a framework for his unique study he offers a reading of *Ecce Homo* that argues that Nietzsche's autobiographical I is both buried in and created by the text itself Only by revising his text by retelling his life to himself can Nietzsche arrive at self knowledge Ultimately Nietzsche finds himself in all literature everywhere He becomes a universal soul Fichtelberg demonstrates that Nietzsche's complex ideas about where subject and language meet in a text can be used to understand the dominant millennial impulse evident in American autobiographies Thomas Shepard cast the American portion of his autobiography as a compendium of colonial triumphs John Woolman rearranged his *Journal* to make a vision of Christian unity its climax and Walt Whitman fashioned *Specimen Days* to highlight his late tour of the west during which he realized an earlier poetic vision of national unity In the nineteenth century this easy faith in millennial union began to collapse and Fichtelberg contends that it remained only in the autobiographies of such marginal groups as those represented by Frederick Douglass and Gertrude Stein He offers a close analysis of their autobiographies and in a concluding chapter examines the work of four recent writers W E B DuBois Lillian Hellman Mary McCarthy and Maya Angelou *The Complex Image* will interest scholars and students of American history and literature **The Religious Revolution** Dominic Green, 2022-04-19 An incisive study of the Western world's shift from institutional religion to more personal beliefs in the second half of the 19th century This is intellectual history at its most comprehensive and convincing *Publishers Weekly* starred review The late nineteenth century was an age of grand ideas and great expectations fueled by rapid scientific and technological innovation In Europe the ancient authority of church and crown was overthrown for the volatile gambles of democracy and the capitalist market If it was an age that claimed to liberate women slaves and serfs it also harnessed children to its factories and subjected entire peoples to its empires Amid this tumult another sea change was underway the religious revolution In *The Religious Revolution* Dominic Green charts this

profound cultural and political shift taking us on a whirlwind journey through the lives and ideas of Ralph Waldo Emerson and Walt Whitman of liphas L vi and Helena Blavatsky of Wagner and Nietzsche of Marx Darwin and Gandhi Challenged by the industrialization globalization and political unrest of their times these figures found themselves connecting with the religious impulse in surprising new ways inspiring others to move away from the strictures of religion and toward the thrill and intimacy of spirituality The modern era is often characterized as a time of increasing secularism but in this trenchant new work Green demonstrates how the foundations of modern society were laid as much by spirituality as by science or reason The Religious Revolution is a narrative tour de force that sweeps across several continents and five of the most turbulent and formative decades in history Threading together seemingly disparate intellectual trajectories Green illuminates how philosophers grifters artists scientists and yogis shared in a global cultural moment borrowing one another s beliefs and making the world we know today

American Sublime Rob Wilson,1991 Tracing ideas of the sublime in American literature from Puritan writings to the postmodern epoch Rob Wilson demonstrates that the North American

landscape has been the ground for political as well as aesthetic transport He takes a distinctly historical approach and explores the ways in which experiences of the American landscape instill desire for other kinds of vastness self expansion national expansion and American political power As Wallace Stevens put it the American will takes dominion everywhere Wilson sets the stage for his genealogy with a discussion of the classical notion of the sublime taken primarily from Longinus and the ways that notion was pragmatically transformed by its American setting and appropriated by American poets He follows this transformation in successive chapters on the Puritans Bradstreet through the Naturalists Livingston and Bryant from the epitome of the American sublime Whitman to the greatest of the modernists Stevens and its present day incarnations Ashbery and others Writing today under the sign of Hiroshima contemporary writers must struggle with the concept of the sublime within a context of spiralling technologies and nuclear force that calls into question the long standing American sacralization of power Throughout American Sublime Wilson engages in an original theoretical inquiry into the sublime as term topic complex and controversial idea in literary and critical history Furthermore he undertakes his historical study from an avowedly postmodern perspective one that draws on and extends the work of Jameson Lyotard Foucault Lentricchia Harold Bloom and others
