Peattie,2025-03-11 Volume two of the acclaimed three volume series on modern Japanese colonialism and imperialism This
book brings together essays by leading experts on the history of Japan to examine the period from 1895 to 1937 when Japan s
economic social political and military influence in China expanded so rapidly that it supplanted the influence of competing
Western powers They discuss how Japan s informal empire emerged in China after Japan entered the Treaty Port system in
1895 and how it shaped Japan s own internal development How did Japan s informal empire expand in size and importance so
that Japanese economic and security interests became heavily dependent on China What influence did Japanese business
groups China experts and military have on their government s China policy How did the Japanese in China deal with the
threatening rise of Chinese nationalism Exploring these and other questions these essays show how the pursuit of an
informal empire in China played a profound role in the emergence of modern Japan The contributors are Banno Junji Barbara
