Subnational Population Projections:

Subnational Population Estimates David A. Swanson,Jeff Tayman,2012-05-23 Providing a unified and comprehensive treatment of the theory and techniques of sub national population estimation this much needed publication does more than collate disparate source material It examines hitherto unexplored methodological links between differing types of estimation from both the demographic and sample survey traditions and is a self contained primer that combines academic rigor with a wealth of real world examples that are useful models for demographers Between censuses which are expensive administratively complex and thus infrequent demographers and government officials must estimate population using either demographic modeling techniques or statistical surveys that sample a fraction of residents These estimates play a central role in vital decisions that range from funding allocations and rate setting to education health and housing provision They also provide important data to companies undertaking market research However mastering small area and sub national population estimation is complicated by scattered incomplete and outdated academic sources an issue this volume tackles head on Rapidly increasing population mobility is making inter census estimation ever more important to strategic planners This book will make the theory and techniques involved more accessible to anyone with an interest in developing or using population estimates

Subnational Population Projections and Their Analytical Requirements

United Nations. Economic Commission for Africa,1974 *The Official Regional Population Projections of Japan* Hachiro Nishioka,Yuji Esaki,Shiro Koike,Masakazu Yamauchi,2025-05-26 This book focuses on the official regional population projections of Japan and examines its methodologies and results written in English by Japanese pioneers in this field for readers who are non Japanese In 2018 the National Institute of Population and Social Security Research IPSS issued Regional Population Projections for Japan 2015 2045 translated title the only official projection actually released by the Japanese government Obviously the population development in the future contains essential information for regional societies It serves not only for looking at the future of regional societies but also as a basis for policy plans of local governments private organizations and other stakeholders This present publication incorporates newer findings in the projections methods and the analysis of projection results Population projection requires looking at three major elements fertility mortality and migration The migration factor is the most important so the migration model is given the sharpest focus here The text explains in an easy to understand manner what kinds of assumptions and models were used to produce this work In addition it considers the population changes of a future Japanese society in two categories metropolitan and non metropolitan areas of the country At the same time the book analyzes the demographic mechanisms of population change

and aging by prefecture and the regional distribution and growth patterns of the foreign population by prefecture and municipality *Preparing Migration Data for Subnational Population Projections* United Nations. Department of
