They were aware that their four classic perspectives were not the central dimensions for every time but need to be adjusted when the economic environment of a company changes. Exactly such a change happened when the digital economy appeared. That is a main reason why a new perspective is important to consider the e business strategy. In practice most of the SME use only the four basic perspectives that are described in the fundamental literature. They do neither dare to create alterations of the perspectives nor to change or modify the shown procedure. These companies need a support how to add the e business perspective to consider the digital economy. For this reason it is necessary to give stimulation to the business practice how to handle goals structures and initiatives of such a new perspective. There is a permanently increasing supply of hardware and software solutions to support or partly take over the processes of the company. The balanced scorecard respects soft facts in its calculations. In the digital economy these soft facts become more and more important. In former times the managing directors of SME often ignored the knock on effect of soft facts. They orientated mainly about financial figures. But the digital economy has to consider different strategies. Some statistics depict that even up to 80% of a company's profits in the digital economy depend on soft facts. Managers have to learn dealing with soft facts and intrinsic values. As DRUCKER says the experience of every employee can be used as a source of value added. An employ   **The New SuperLeadership** Charles C. Manz, Henry P. Sims, 2001-02-28. The truly effective leader today must be one who leads others to lead themselves. The rapid pace of change demands fast and flexible responses throughout the organization. There's no time to wait for directives from the top. And the highly skilled workers so vital to organizational success also demand a high degree of independence. Old fashioned command and control leadership is just too slow and stifling. Charles Manz and Henry Sims Jr. pioneered the concept self leadership in their bestselling book SuperLeadership. In The New SuperLeadership the authors present new

content and examples designed to help leaders develop the kind of autonomous quick reacting workforce necessary to thrive in these turbulent times This enriched and expanded edition takes the concepts in the first edition to another level by emphasizing a pragmatic how to approach for developing leaders at every level of the organization Drawing on contemporary examples and profiles many from the high tech and information sectors Manz and Sims shatter the myth of the traditional aggrandized versions of heroic leadership They show that a leader truly becomes successful by turning followers into extraordinary self leaders pillars of strength that will support the organization at every level They detail a series of action oriented steps through which the SuperLeader provides an opportunity for followers to express and develop their own leadership skills and in the process become highly motivated dynamic contributors The New SuperLeadership critically reviews traditional leadership styles vividly illustrating the drawbacks of each the Strong Man whose reliance on fear based compliance smothers initiative the Transactor who promotes a narrow what s in it for me mentality and the Visionary Hero whose powerful personality inspires commitment but inadvertently discourages independent thinking By bringing out the leader in every employee SuperLeadership enables leaders to avoid these pitfalls and develop an enthusiastic innovative and energized workforce The New SuperLeadership is a radically new way of looking at leadership offering a leadership paradigm ideally suited to the realities of the modern workplace It reveals that the only way to succeed today is to tap into the innate leadership potential that lies within every employee    School Management ,1968-05    The Leadership Quarterly ,1996    Management Services ,1981    Leadership and Management of Volunteer Programs James C. Fisher,Kathleen M.
