## **Supervision Can Be Playful**

Drewes, Mullen, 2008-08-14 *Supervision Can Be Playful* offers clinical supervisors of mental health professionals a comprehensive and thoughtful resource. The text focuses on the clinical supervision of child and play therapists with supervision interventions that can be augmented for use with mental health professionals who provide supervision to adolescent and adult therapists. The perspectives discussed regarding the role of the clinical supervisor are universal and readers will find them relevant regardless of the age group they are working with. The text addresses the roles and processes of clinical supervision from a unique playful perspective and from an eclectic theoretical orientation. Each chapter author offers a piece of the supervision puzzle and offers the reader clear guidelines for implementing techniques and the rationale behind them.

## **Pushing Boundaries in Postgraduate Supervision** Eli Bitzer, Ruth Albertyn, Liezel Frick, Barbara

Grant, Frances Kelly, 2014-04-01 This book is a very important contribution to the growing body of work on postgraduate and specifically doctoral education. I find the metaphor of pushing boundaries to be very appropriate as it suggests a field of study and a range of behaviours and institutional organisational approaches to postgraduate education that are dynamic and characterised by fluidity, creativity and challenge. Readers will gain new theoretical perspectives, ideas for improved practice and fresh perspectives on boundaries and pressing issues that deserve to be pushed and conceptualised in new ways.

## **Supervision in Action: A Relational**

**Approach to Coaching and Consulting Supervision** Erik de Haan, 2012-02-16 *Supervision* assures the quality of professional practice through careful monitoring; it heals wounds through wholesome listening and support and offers a unique and free space to develop that which we all want to progress our personal relationships. This book will help professional supervisors, consultants and coaches with the care for the self aspect of their role, the art of enhancing one's own performance with the help of experience in practice. The book features a compact overview of the whole profession of coaching and consulting supervision. An integrated approach for coaches and consultants highlighting differences. More than 40 real life case vignettes. Short summaries after each chapter. A full overview of types of contract and methodology with specific flowcharts. A detailed introduction to the ethics of supervision. *Supervision in Action* is a book for all professional consultants who want to take good care of themselves and who want to help other consultants and coaches with the care for the self. In reading this book I felt that I was going on a journey with Erik de Haan in his own discovery of the complexities and relevance of supervision to practice. He discusses very well the multiple levels of reflection that help supervisees move from rigidity to flexibility. All the chapters are interspersed with examples of the supervisory process which are geared to illustrate the points that he is making. Professor Maria Gilbert Joint Head of the Integrative Department at Metanoia. The book is pragmatic and honest, offering rich vignettes to demonstrate application of both simple and complex concepts to the supervision process. De

Haan explicitly recognises the complexity of working with people in organisations working with what is emerging and positions learning as an ongoing enquiry Dr Alison Whybrow i coach academy Ltd The distinct contribution of de Haan s book to the coaching profession lies in the focus on the psychodynamic relationship in supervision The detailed explanation and exploration of the phenomena of transference and parallel process through numerous case examples provides a rich source of learning and growth for both Supervisor and Supervisee John Leary Joyce CEO Academy of Executive Coaching EMCC UK President This excellent title which combines theory with practical case studies is recommended reading for those interested in supervision and reflective practice Dr Jonathan Passmore Independent Consultant Galileo once said You cannot teach people anything You can only help them discover it within themselves Erik de Haan is unparalleled in helping coaches to become more effective in this discovery process in using themselves as an instrument This book is invaluable for consultants and coaches who want to learn more from experience Manfred Kets de Vries Professor of Leadership Development INSEAD France Drawing on his extensive experience as a practitioner teacher and researcher de Haan has created a book which will not only benefit experienced supervisors but will also enhance the capacities of coaches OD consultants and consulting teams to self reflect and to gain optimum value from their supervision This book provides a welcome guide for more mindful and skilful supervision practice Hilary Lines Executive and Team Coach *A Handbook for Revenue Officers in the Presidency of Bombay* Alexander Kyd Nairne,1884 *EMBC 2004* IEEE Engineering in Medicine and Biology Society.
