## **Supreme Of Mankind:**

**The Ego-Mankind's Inner Terrorist!** Gene Matlock, 2005-09 Gene Matlock says personal testimonies of reincarnation contact with spirits bilocation and all manner of psychic events are invalid as scientific proofs. Most people aren't conscious of psychic experiences and events operating in their lives. Gene says that we can and must provide our fellow humans with a common and collective memory of having lived before. They don't need to remember any details of past lives but just the memory of having had repeated births and deaths. Gene claims to have valid evidence that all of us remember having lived before. Gene also traces the original meaning of God back to its North Indian roots telling how God reveals his/her existence through natural archetypes. He says Christianity originated more than ten millenniums ago in India as Krishtaya providing historical evidence. He also explains carefully why religion can never be eradicated plus many other fascinating and little known facts. Gene shows how anyone can break the Bible Code easily without computer assistance. Within these pages is a simple instant Cabala for all people of all religions.
