Sur Le Marxisme Occidental:

Hegel, Marx and the Contemporary World Kaveh Boiveiri, Emmanuel Chaput, 2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal Canada discussing the relevance of the work of Hegel and Marx in today's world particularly with regard to the ecological economic political and anthropological crisis facing humanity Accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory However if indeed the necessity of a proper critique Kritikos is intimately linked to a state of crisis Krisis the conceptual frame necessary to produce such a critique may itself be in crisis Among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established Looking back to Marx and Hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism Be it with or against Hegel and or Marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers Both Marx's and Hegel's philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in Hegel's case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx's case Both intellectual ventures are at every turn haunted by the notion of crisis This book will appeal to anyone interested in Hegel's and Marx's philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective

Le travail de parti de Marx Jean Quétier, 2024-03-03 Entre la philosophie et l'histoire cet ouvrage étudie l'activité de l'employé par Marx au sein des structures militantes dans lesquelles il est successivement intervenu Il interprète les différentes traces de cette activité
