## **Surgeons Smallpox And The Poor:**

**Surgeons, Smallpox and the Poor** Allan Everett Marble, 1993 Allan Marble describes the practice of medicine and surgery in Nova Scotia during the province's period of early settlement in the last half of the eighteenth century. Investigating such matters as the role of the state in providing medical care, the structure of the medical community and the physical conditions people had to endure, he situates his discussion in the context of more general Nova Scotian history. *Surgeons, Smallpox, and the Poor* Allan Everett Marble, 1993-10-25 Beginning with an account of the settlement of Halifax, Marble documents the care taken by the Lords of Trade and Plantations to provide proper food and health care during the settlers' passage across the Atlantic in May and June of 1749. He chronicles the rendezvous of regiments and ships in Halifax between 1755 and 1763 examining the two smallpox epidemics which followed their arrival. He deals with the treatment of the poor in Nova Scotia between the Seven Years War and the American Revolution showing that many in this group were camp followers who had been abandoned by regiments that had left Halifax. Financial resources previously directed towards providing medical services for citizens had to be redirected to feed, clothe and shelter such individuals. A third smallpox epidemic struck Nova Scotia in 1775-76 and as Marble demonstrates, prevented the Americans from attacking Halifax. He examines the initial unsuccessful attempt to regulate the practice of medicine in Nova Scotia and explores the reasons the region lagged behind Lower Canada and the American colonies in this regard. Marble covers all aspects of health care including hospitals, the training and practices of physicians and surgeons, the use of patent medicines and the various types of medical and surgical treatments. As well, he has made a thorough study of individual patients through their wills, diaries and personal letters.
