The Partys Choice:

Party Autonomy in Contractual Choice of Law in China Jieying Liang, 2018-03-22 The principle of party autonomy in contractual choice of law is widely recognised in the law of most jurisdictions It has been more than 30 years since party autonomy was first accepted in Chinese private international law However the legal rules provided in legislation and judicial interpretations concerning the application of the party autonomy principle are abstract and open ended Without a critical understanding of the party autonomy principle and appropriate interpretations of the relevant legal rules judges have not exercised their discretionary power appropriately The party autonomy principle has been applied in a way that undermines its very purpose that is to protect the legitimate expectations of the parties and promote the predictability of outcomes in transnational commercial litigation Jieying Liang addresses the question of how when and with what limitations parties choice of law clauses in an international commercial contract should be enforced by Chinese courts
