The Madonnas of Europe Janusz Rosikoń, 2007-01 **The European Tour** Grant Allen, 1899 **Feminist Mysticism and Images of God** Jennie S Knight, 2011-02-28

Feminist theologians often claim that women's experience is their starting point. However, most feminist theology is remarkably void of analysis of particular women's experiences of imaging God. In this book, Knight provides practical recommendations to help people transform images in the context of religious practices. What difference does it make whether we picture God as an elderly white grandfather, a nurturing African American mother, or a stranger on the bus? Jennie Knight says our image of God affects how we see ourselves, how we worship, how we treat one another, how or whether we work for justice, and a host of other life practices. But after years of knowing intellectually that God transcends a specific human type, Knight still struggles to make an emotional connection with God in different forms. She suspects that that struggle is why many seminarians who wrote papers about thea theology abandon nontraditional God images once they hit parish ministry, perpetuating the practice of seeing God as a European male on a throne and all the accompanying problems that such imagery creates. Knight believes that personal and critical reflection in the context of a supportive learning community combined with experiences of diverse images for the divine in worship can lead to profound changes in self-image, relationship with the divine, and agency in the world. This book aims to demonstrate why and how this transformation is both possible and necessary.

The popularity of *The Shack*, *The Secret Life of Bees*, *Joan of Arcadia*, and other works with nontraditional God figures reveals a culture ready to embrace God in many forms. Knight examines how the church can do the same.

Christian Pilgrimage in Modern Western Europe Mary Lee Nolan, Sidney Nolan, 2018-06-15

Christian Pilgrimage in Modern Western Europe is a commanding exploration of the importance of religious shrines in modern Roman Catholicism. By analyzing more than 6 000 active shrines and contemporary patterns of pilgrimage to them, the authors establish the cultural significance of a religious tradition that today touches the lives of millions of people. Roman Catholic pilgrimage sites in Western Europe range from obscure chapels and holy wells that draw visitors only from their immediate vicinity to the world famous, often thronged shrines at Rome, Lourdes, and Fátima. These shrines generate at least 70 million religiously motivated visits each year, with total annual visitation exceeding 100 million. Substantial numbers of pilgrims at major shrines come from the Americas and other areas outside Western Europe. Mary Lee Nolan and Sidney Nolan describe and interpret the dimensions of Western European pilgrimage in time and space, a cultural geographic

approach that reveals regional variations in types of shrines and pilgrimages in the sixteen countries of Western Europe They examine numerous legends and historical accounts associated with cult images and shrines showing how these reflect ideas about humanity divinity and environment The Nolans demonstrate that the dynamic fluctuations in Christian pilgrimage activities over the past 2 000 years reflect socioeconomic changes and technological transformations as well as shifting intellectual orientations Increases and decreases in the number of shrines established coincide with major turning points in European history for pilgrimage no less than wars revolutions and the advent of urban industrial society is an integral part of that history Pilgrimage traditions have been influenced by and have influenced science literature philosophy and the arts Christian Pilgrimage in Modern Western Europe is based on ten years of research The Nolans collected information on 6 150 shrines from published material correspondence with bishops and shrine administrators and interviews They visited 852 Western European shrines in person Their book will be of interest to many general readers and of special value to historians cultural geographers students of comparative religion anthropologists social psychologists and shrine administrators The Masterpieces of European Art ...
