The Manhunter Large Print:

A History of Iran (Large Print 16pt) Michael Axworthy, Senior Lecturer and Director of Centre for Persian and Iranian Studies Michael Axworthy, 2010-05 Although frequently vilified Iran is a nation of great intellectual variety and depth and one of the oldest continuing civilizations in the world. Its political impact has been tremendous not only on its neighbors in the Middle East but also throughout the world. From the time of the prophet Zoroaster to the powerful ancient Persian Empires to the revolution of 1979 the hostage crisis and the current standoff over Iran's nuclear ambitions Michael Axworthy vividly narrates the nation's rich history. He explains clearly and carefully both the complex succession of dynasties that ruled ancient Iran and the surprising ethnic diversity of the modern country held together by a common culture. With Iran again the focus of the world's attention A History of Iran is an essential guide to understanding this volatile nation.

Keith Booker, 2014-10-28 Focusing especially on American comic books and graphic novels from the 1930s to the present this massive four volume work provides a colorful yet authoritative source on the entire history of the comics medium. Comics and graphic novels have recently become big business serving as the inspiration for blockbuster Hollywood movies such as the Iron Man series of films and the hit television drama The Walking Dead. But comics have been popular throughout the 20th century despite the significant effects of the restrictions of the Comics Code in place from the 1950s through 1970s which prohibited the depiction of zombies and use of the word horror among many other rules. Comics through Time A History of Icons Idols and Ideas provides students and general readers a one stop resource for researching topics genres works and artists of comic books comic strips and graphic novels. The comprehensive and broad coverage of this set is organized chronologically by volume. Volume 1 covers 1960 and earlier. Volume 2 covers 1960-1980. Volume 3 covers 1980-1995 and Volume 4 covers 1995 to the present. The chronological divisions give readers a sense of the evolution of comics within the larger contexts of American culture and history. The alphabetically arranged entries in each volume address topics such as comics publishing characters imprints genres themes titles artists writers and more. While special attention is paid to American comics the entries also include coverage of British Japanese and European

comics that have influenced illustrated storytelling of the United States or are of special interest to American readers
