Strategy After Deterrence:

Strategy After Deterrence Stephen J. Cimbala, 1991-01-30 The profound political changes in the USSR and Eastern Europe during 1989 have forced the United States and its Western European allies to reevaluate both their long held military strategy of nuclear deterrence and the traditional role of NATO in European affairs. In this volume Stephen Cimbala considers the ways in which American military priorities will have to change now that the tangible threat to Europe has been removed exploring the options available to America and NATO given the new political and economic realities in Europe and the Soviet Union. Drawing upon a rich literature of Soviet and American defense strategy Cimbala examines the structure and effectiveness of deterrence as a military strategy the relationship between conventional and nuclear weapons the likely course of future conflicts and alternative military strategies. Following an introductory chapter which defines the concepts of deterrence and dissuasion and offers an overview of the changing character of European politics Cimbala reviews the political context for the development of military strategy in Europe. Subsequent chapters consider the relationship between military stability and the likelihood of winning wars in their initial stages analyze the issue of deterrence during war discuss the potential for atypical wars in the future and investigate the linkages between deception and deterrence. A separate chapter addresses the attempt to substitute non nuclear dissuasion for nuclear deterrence in the form of anti nuclear strategic defenses which could defeat nuclear offenses. In the final chapter Cimbala summarizes his conclusions and makes some additional observations about the implications of our new view of NATO and deterrence. Students of international relations foreign policy and military studies will find Cimbala's work enlightening and provocative reading. *Bernard Brodie and the Foundations of American Nuclear Strategy* Barry Howard Steiner, 1991 Steiner analyzes how and why Brodie's understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets. He shows the tremendous effect Brodie's work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom.

Targeting for Strategic Deterrence Desmond Ball, 1983 Amerikanske synspunkter som de har udviklet sig vedr rende anvendelsen af atomv ben **Strategic Stability And Nuclear Deterrence In East-west Relations** Wolfgang Heisenberg, 1989-04-30 **Deterrence in the Twenty-first Century** Anthony Christopher Cain, 2010 Sponsored by the Air Force Research Institute AFRI and the Royal United Services Institute the conference was held in London on 18 19 May 2009 and focused on deterrence to help understand and begin to develop policy frameworks that fit the current and emerging security context. Assembling some of the best minds on deterrence the conference afforded speakers an opportunity to invigorate this essential tool for today's policy community. In addition the conference included two preconference thought pieces and two quick looks by AFRI personnel AU Press web site. *France's Deterrent Posture and Security in Europe: Strategic and arms control implications* David Scott Yost, 1985 Af indholdet Implications for the Alliance Implications for

Greenberg,1994 Deterrence Essentials David Garnham,1995 This paper examines the challenges of conventional deterrence It emphasizes the knowledge and capabilities required for the successful implementation of strategies such as deterrence by punishment by denial and by appeasement Intelligence requirements including knowledge of adversary preferences and personalities of decision makers are also addressed Examples of conflicts such as the Japanese attack on Pearl Harbor NATO s deterrence of the Soviet Union and the Gulf War of 1990 1991 are cited to illustrate the dynamics of deterrence success and failure Due to the importance and timely nature of the topic this paper is also published in Arabic as Issue No 2 of Strategic Studies Arabic Series

Eisenhower and the Management of Prosperity John W. Sloan,1991 Three years out of eight President Eisenhower achieved a balanced budget **NATO Strategy and Nuclear Escalation** Stephen J. Cimbala,1989 In this analysis of key doctrines plans and policies at the centre of the controversy about Western deterrence and defence the author points to doctrinal deficiencies and examines NATO ideas on escalation and policy in terms of both logical consistency and implication for strategy Post-Cold War Conflict Deterrence National Research Council,Division on Engineering and Physical Sciences,Commission on Physical Sciences, Mathematics, and Applications,Naval Studies Board,1997-04-02 Deterrence as a strategic concept evolved during the Cold War During that period deterrence strategy was aimed mainly at preventing aggression against the United States and its close allies by the hostile Communist power centers the Union of Soviet Socialist Republics USSR and its allies Communist China and North Korea In particular the strategy was devised to prevent aggression involving nuclear attack by the USSR or China Since the end of the Cold War the risk of war among the major powers has subsided to the lowest point in modern history Still the changing nature of the threats to American and allied security interests has stimulated a considerable broadening of the deterrence concept Post Cold War Conflict Deterrence examines the meaning of deterrence in this new environment and identifies key elements of a post Cold War deterrence

strategy and the critical issues in devising such a strategy. It further examines the significance of these findings for the U S Navy and Marine Corps. Quantitative and qualitative measures to support judgments about the potential success or failure of deterrence are identified. Such measures will bear on the suitability of the naval forces to meet the deterrence objectives. The capabilities of U S naval forces that especially bear on the deterrence objectives also are examined. Finally the book examines the utility of models, games and simulations as decision aids in improving the naval forces' understanding of situations in which deterrence must be used and in improving the potential success of deterrence actions.
