## **The New Religious Jewsrecent Developments Among Observant Jews In Israel:**

*Jews in Israel* Uzi Rebhun, Chaim Isaac Waxman, 2004 Offers a complete sociological perspective of Jews and Jewish life in Israel from 1948 to the present    Comparative Perspectives on Judaisms and Jewish Identities Stephen Sharot, 2011 In Comparative Perspectives on Judaisms and Jewish Identities author Stephen Sharot uses his work published in journals and collected volumes over the past thirty five years to examine a range of Jewish communities across both time and geography Sharot s sociological analyses consider religious developments and identities in diverse Jewish communities from Imperial China and Renaissance Italy to contemporary Israel and the United States As Sharot examines these groups other religions enter into the discussion as well not only as major elements in the environments of Jewish communities but also with respect to certain religious phenomena that too have been present in Judaism The book is divided into four parts the first compares religious developments in pre modern and early modern Jewish communities the second focuses on Jewish religious movements especially messianic millennial and antinomian in the pre modern and early modern period the third examines Jewish religious and ethnic identities in the modern period and the fourth relates developments in Judaism in the modern period to theoretical debates on secularization fundamentalism and public religion in the sociology of religion The afterword sums up the findings of the previous sections and compares the boundaries and boundary shifts among Jewish communities As the plural Judaisms in the title indicates Sharot discusses extensive differences in the religious characteristics between Jewish communities Scholars of religion and sociology will appreciate this informative and fascinating volume    **Israel's Higher Law** Steven V. Mazie, 2006-01-01 In Israel s Higher Law Steven V Mazie sheds new light on the relationship between liberalism and religion through a detailed assessment of the Jewish state Drawing on in depth interviews with Israeli citizens this compelling work scrutinizes the ways in which Israelis conceptualize and debate their polity s religion state arrangement

*Boundaries and Belonging* Joel S. Migdal, 2004-05-03 This interdisciplinary volume maintains the importance of a spatial understanding of society and history but suggests a way of conceiving of borders and space that goes beyond a school map of states Its subject is the struggle among differing spatial logics or mental maps It is concerned with the meaning that state borders hold for people but recognizes that such meaning varies and is contested by other social formations To what degree do state borders encase the mechanisms that make the decisive rules governing people s lives and to what extent do they give way to other rulemakers To what extent do states circumscribe the communities to which people feel attached and to what extent do they intersect with other communities of belonging These essays home in on the struggles and conflicting demands on people given that state borders are not automatically pre eminent and that other spatial logics demand attention

**Learning In a Networked Society** Yael Kali, Ayelet Baram-Tsabari, Amit M. Schejter, 2019-04-26 One of the most significant developments in contemporary education is the view that knowing and understanding are anchored in cultural practices within communities This shift coincides with technological advancements that have reoriented end user computer

interaction from individual work to communication participation and collaboration. However while daily interactions are increasingly engulfed in mobile and networked Information and Communication Technologies ICT in school learning interactions are in comparison technologically impoverished creating the phenomenon known as the school society digital disconnect. This volume argues that the theoretical and practical tools of scientists in both the social and educational sciences must be brought together in order to examine what types of interaction knowledge construction social organization and power structures a occur spontaneously in technology enhanced learning TEL communities or b can be created by design of TEL. This volume seeks to equip scholars and researchers within the fields of education educational psychology science communication social welfare information sciences and instructional design as well as practitioners and policy makers with empirical and theoretical insights and evidence based support for decisions providing learners and citizens with 21st century skills and knowledge and supporting well being in today s information based networked society

**Israeli Identity in Transition** Anita Shapira, 2004-10-30 The last 15 years have witnessed deep changes in Israeli society. The naive solidarity of the early years of statehood has given way to more sophisticated approaches and the atmosphere of the 1990s was conducive towards critique and open discussion. It was the age of the Oslo Accords of the large wave of immigrants from the Former Soviet Union economic growth and prosperity and a concurrent feeling of security and well being. Israel was fast becoming a postcapitalist society a junior member of the global village. This newly acquired self assurance led to openness towards unorthodox views on basic questions of Israeli identity. The new mood found expression in the cultural climate and in the public debates. The Zionist narrative in relation to the Palestinians the early troubled absorption of immigrants from Islamic countries the discrimination against the Arab Israeli minority the delay in the 1950s in incorporating the memory of the Holocaust into collective memory the Zionist attitude towards the Jewish Diaspora all these were issues on the cultural and intellectual agenda subjects of heated controversies. This book attempts to come to grips with these themes. The complex texture of Israeli society is drawn here by a number of hands presenting up to date approaches as viewed by experts.

**Gender and Israeli Society** Hannah Naveh, 2003 This volume of essays by prominent researchers in Israeli history and society is the first of two interconnected volumes engaging with the concept of women s time. It recounts stories and histories of women along with other marginalized groups categories and classes and places them back into history. The studies in this volume illuminate the complex and multifaceted nature of issues of feminist concern asking whether the manifestation of women s interests as a class brings women into the public sphere or whether it induces compliance with national interests. Women s time involves resistance to self evident and often patriarchal truths and knowledge and by creating a model for the investigation of other obliterated narratives serves the well being of all in Israel and beyond

**Militarism and Israeli Society** Gabriel Sheffer, Oren Barak, 2010 Often the classic theory of civil military relations are insufficient when trying to comprehend the Israeli case. The essays within this book challenge that the civilian sector in Israel has maintained its

predominance over the security sector since the state's independence in 1948. They provide a deeper and more nuanced view of the actual situation and also throw light on the formal and informal arrangements, connections and dynamic relations between Israel's security sector and the country's civilian sector to include the cultural sphere, the political system, society, the economy and the public discourse. Issues and events discussed are Israel's separation barrier, the impact of Israel's military confrontations with the Palestinians and other Middle Eastern states and the impact of the wars in Iraq and Afghanistan. The Israeli case offers insights about the role of the military and security in democratic nations in contemporary times.

**Israel Studies Forum**, 2001    Israel Studies, 2007    Religious Zionism Post Disengagement Chaim Isaac

Waxman, Chaim I. Waxman, 2008    **The Torah U-madda Journal**, 2004    Faith in Liberalism Steven V. Mazie, 2002 Does liberalism necessitate a strict separation of religion and state? Or are there some ways in which religion may play a role in constituting a liberal state? Steering clear of a tendency among some political theorists to insulate questions of justification from a rigorous engagement with actual political practices, this dissertation addresses these questions by closely analyzing the links between Judaism and democracy in the State of Israel. Chapter 1 debunks a common assumption that varieties of religion-state interaction are limited to either wholesale integration or strict separation. It fleshes out John Rawls's arguments concerning the proper role of religion in public deliberation and argues that political liberalism makes room for more religion in political life than is often thought. Chapter 2 begins the investigation of Israel's religion-state arrangement by outlining the role of religion in Israeli constitutional development and describing the Jewish dimensions of the state. Chapters 3-5 turn to the illuminating results of an original research study funded by the National Science Foundation Grant No. SES 9910903.

Here I introduce 31 religiously diverse Israeli interview subjects, critically analyze their arguments about the nature of Israel as a Jewish state and as a democratic state, explore what Israelis mean when they call for separation of religion and state or a state of all its citizens, and take a microscope to three sets of religion-state linkages those agreeable to the vast majority of Arab and Jewish citizens alike, those objectionable to liberal Jews and those particularly troublesome in the eyes of Arabs.

Chapter 6 reflects on the results of the field research and on Rawls's arguments in *The Law of Peoples* to develop a more contextual account of political liberalism. I conclude that while mixing politics with religion is fraught with potential dangers, distinctions must be made between religion-state connections which threaten civil liberties and those which affirm and express a society's deeply held values or serve genuinely liberal purposes without sacrificing individual freedom. Through a detailed exploration of a provocative case study, the project offers a nuanced and politically engaged appraisal of the risks and opportunities of religion in politics.

**Jewish Polity and American Civil Society** Alan Mittleman, Robert Licht, Jonathan D. Sarna, 2002-07-31. *Jewish Polity and American Civil Society* is a study of the civic and political engagements of American Jews as mediated by their communal and denominational institutions. The book explores how the various branches of the organized Jewish community seek to influence public affairs. Over the course of the last century, Jewish agencies and religious

movements have tried to shape public debate and public policy on such issues as civil rights church state relations and American foreign policy The book sets the history of Jewish engagement in these areas into historical context analyzes the motives strategies and tactics of various Jewish groups and evaluates their successes and failures The book also explores the underlying idea the public philosophy that informs American Jews understanding of civic and political engagement

Outlawed Pigs Daphne Barak-Erez,2007-06-05 Publisher Description *The Challenge of Post-Zionism* Ephraim Nimni,2003 The debate within Israel on the country s future and characteristics known as Post Zionism challenges fundamental myths surrounding the early history and contemporary identity of the Israeli State The argument is voiced by individuals and groups with different political agendas and drawn from the Israeli media intellectual circles and academia It seeks to downplay the influence of Judaism in the definition of the state and to move towards the idea that Israel should become a secular state of all its citizens This argument has profound implications for the Israeli Palestinian conflict and for Israeli politics The contributors to this volume present the debate examine Post Zionism s meanings and prospects place it in its political context and explore its implications for out groups including Palestinians Israeli women and Jewish people outside Israel **News from the School of the Jewish Woman** ,1973 *Jewish observer and Middle East review* ,1956

The Jews in Modern France Frances Malino,Bernard Wasserstein,1985 Eighteen noted historians and political scientists analyze the history of the Jewish minority in France since the Revolution The Christian observer [afterw.] *The Christian observer and advocate* ,1873
