Monahan,2009 Almost as if it were a dream day number 360 came and I was transported into another world The flights were long but within

just a couple of days I found myself back at my original starting point Salt Lake City Utah Before arriving in Salt Lake City though I was greeted by my parents and my in laws at Baltimore Washington International BWI airport As I scrambled through the baggage claim area and customs I made my way towards my release from the regimented deployment world Both sets of parents were poised and ready to greet me and my friends returning from overseas Upon catching a glimpse of me they popped out of their seats and began waving small American flags in my general direction It was very nice to see them and it was a nice patriotic sight I arrived at the airport at approximately midnight and I was hungry so we all went out to eat at an all night diner in Arlington Virginia It was about 0300 in the morning when we finished up our meal and headed back to my in laws house to sleep I caught an 1800 flight the next day which brought me to Salt Lake City at approximately 2300 that night The second leg of my flight from Phoenix Arizona was very comfortable and relaxing Wearing my DCUs one of the flight attendant s decided to move me to First Class Not only did this provide me with more comfort but it also provided me an opportunity to sit next to her husband who had joined her on the flight I had a really nice conversation with the flight attendant s husband throughout the flight Then as we landed in Salt Lake City the flight attendant announced to all of the people on the flight that I had just returned home from the war in Afghanistan Everyone began to clap and I received the honor of being the first person off of the airplane I then began my mad dash towards my family People noticed that I was in uniform holding two little bears one for each of my girls and I was practically running so everyone pretty much got out of my way Within minutes I saw Melanie holding a Welcome Home poster and my girls waving small American flags It was a very impressive and precious sight I scooped up both of my daughters in my hands and I embraced the whole family The nice thing was that Suzanna didn t cry everyone seemed to at least have some idea who I was this time In fact Annabelle wouldn t hardly let me go out of her sight for the next few days I learned several days later that Annabelle had a lot of trouble sleeping while I was gone which was attributed to me not being there and her not knowing when I would come home This latter fact is what changed my mindset from wanting to go back to the combat zone any time soon While I was gone I made the most of my deployment and I even learned to enjoy many aspects of the adventure However when you see the effects of being gone on the homefront nothing else seems to matter but family Would I go again Absolutely But I would certainly wait for my number to come up or for someone to come asking for my assistance a little more passionately When I arrived at my actual home in the Ogden Utah area I quickly noticed several decorations on the property I hadn t expected such extravagance but I was certainly impressed by what I saw As I walked around the house and the yard in my civilians clothes the next day surrounded by my family I finally felt like I was home

optimal design of a liquid liquid extraction system aiche - Dec 08 2022

web liquid liquid extraction processes often require one or more downstream distillation columns this article describes the process design of such systems in most chemical separation applications involving liquid liquid extraction lle the process will require one or more distillation columns downstream of the extraction column

extraction liquid liquid - Feb 27 2022

web feb 2 2011 liquid liquid or solvent extraction is a countercurrent separation process for isolating the constituents of a liquid mixture in its simplest form this involves the extraction of a solute from a binary solution by bringing it into contact with a second immiscible solvent in which the solute is soluble

[liquid liquid extraction an overview sciencedirect topics](#) - Apr 12 2023

web liquid liquid extraction is an important separation method in research and chemical analysis as a commercial process it is frequently used in the chemical and mining industries and in the downstream recovery of fermentation products antibiotics amino acids steroids

4 extraction chemistry libretexts - May 01 2022

web in the chemistry lab it is most common to use liquid liquid extraction a process that occurs in a separatory funnel a solution containing dissolved components is placed in the funnel and an immiscible solvent is added resulting in two layers that are shaken together

liquid liquid extraction a universal method to synthesize liquid - Nov 07 2022

web in this work a liquid liquid extraction lle method has been developed to produce liquid pcs via simple mixing and liquid phase separation at room temperature single and two component extractants are used to extract part of the solvent from a diluted colloidal solution which effectively concentrates the colloidal solution without

liquid liquid extraction wikipedia - Aug 16 2023

web liquid liquid extraction lle also known as solvent extraction and partitioning is a method to separate compounds or metal complexes based on their relative solubilities in two different immiscible liquids usually water polar and an organic solvent non polar

liquid extraction an overview sciencedirect topics - Dec 28 2021

web 2 2 1 pressurized liquid extraction ple is a solid liquid extraction technique capable of extracting a wide range of organic contaminants from a wide variety of biological matrices 6 ple offers improved extraction efficiency sample throughput and automation 7 ple can be viewed as an extension of supercritical fluid extraction

liquid liquid extraction lle wiley online library - Mar 11 2023

web feb 11 2013 summary liquid liquid extraction lle also known as solvent extraction is a typical ternary system in the chemical engineering field which separates chemicals from one solution to another based on the different solubility of the solute chemical in
