Minteer, Mark Klett, Stephen J. Pyne, 2022-01-01 A stunning combination of landscape photography and thematic essays exploring how the concept of wilderness has evolved over time Our ideas of wilderness have evolved dramatically over the past one hundred and fifty years from a view of wild country as an inviolable place apart to one that exists only within the matrix of human activity This shift in understanding has provoked complicated questions about the importance of the wild in American environmentalism as well as new aesthetic expectations as we reframe the wilderness as to some degree a human creation *Wild Visions* is distinctive in its union of landscape photography and environmental thought a merging of short thematic essays with a striking visual narrative Often the wild is viewed in binary terms either revered as sacred and ecologically pure or dismissed as spoiled by human activities This book portrays wilderness instead as an evolving gamut of understandings a collage of views and ideas that is still in process **If I Were God** Richard Le Gallienne, 1897 **The NSG** Charles Joseph Albert, Three teenage brothers discover that if they can stop fighting each other and work together they can form the irresistible force of the Nearly Super Guys **American Photography**, 1943 **Upstairs, Downstairs** Edith Bishop Sherman, 1935 Who Done It?
