*Ghosts of Leavenworth and the Cascade Foothills* Deborah Cuyle, 2017-09-18 The spirits of the early pioneers still roam the streets of Leavenworth and lurk in the lengthening shadows of the surrounding hills Chas Gordon's murder sits unsolved after a century of mystery as does the location of the lost Ingalls gold Muffled sobs mark out the Thorp Cemetery while a ghostly hand coaxes a soft tune from the piano in the lobby of the Tumwater Inn Saloon shootings and railroad tragedies left their own legacy of restless souls Author Deborah Cuyle reveals the fascinating history behind the ghost stories from this corner of the Cascade Mountains

**The Cascade Ghost** Lou Cameron, 1978

**Heart Waters** Kevin Van Tighem, 2015

Water does not come from the river It comes to the river Heart Waters takes us to the sources of that water and into the living beauty human stories and future possibilities that also arise from the green slopes and valleys of Alberta's Eastern Slopes where the Bow River is born For more than a century ago the foothills and Front Range mountains of western Alberta have been recognized vital to the future water supply for Canada's prairies Virtually all the water that sustains communities ecosystems and the economy of prairie Canada comes from this narrow strip of land arrayed along the Continental Divide For all its importance however water management decisions have ignored the importance of land health and focused almost exclusively on building dams The result as the author points out is that the Bow River's annual flows have decreased by more than a tenth even while spring floods become more frequent and more destructive The solutions to prairie Canada's water challenges lie in healing the wounded landscapes of our headwaters Heart Waters delves deeply into the history and ecology of a landscape whose critical value as a watershed is matched by its sheer beauty and diversity A rich array of stunning photographic imagery by Jasper based photographer Brian Van Tighem complements the author's well researched explorations of the stories whispered by the living waters that drain from Banff National Park Kananaskis Country and the famous ranchlands of the Bow River watershed Heart Waters is a deep exploration of place and an invitation to recognize that our water future depends upon knowing our headwaters better and caring for them more passionately as our heart waters We could belong here too the book concludes We could be like the bull trout the willows the wary horses like the river that continually arises from these fine green places where the waters are born We could find our best selves in the stories of those living waters and the river that gathers them together
