Consequently, the results of the present study suggest that the use of a single, low-dose, oral, short-acting PDE5 inhibitor may be a safe and effective treatment for patients with mild to moderate hypertension.

These findings will be presented in a poster presentation at the 2013 Annual Meeting of the American Academy of Orthopaedic Surgeons in San Francisco, CA.

Other than a few minor differences, the two versions are identical. The primary difference is that the second version includes a few additional lines of code that are not present in the first version. These additional lines of code are used to handle the case where the user enters a character that is not a digit or a decimal point. The first version does not handle this case, and will result in an error if the user enters a non-digit character.
