*Strategies for Sustainability*, 2009      *Strategies for Sustainability: Latin America* Arturo Lopez Ornat, 2013-11-05 IUCN The World Conservation Union Founded in 1948 The World Conservation Union brings together States government agencies and a diverse range of non governmental organisations in a unique world partnership over 800 members in all spread across some 136 countries As a Union IUCN seeks to influence encourage and assist societies throughout the world to conserve the integrity and diversity of nature and to ensure that any use of natural resources to equitable and ecological sustainable The World Conservation Union builds on the strengths of its members Networks and partners to enhance their capacity and to support global alliances to safeguard natural resources at local regional and global levels The Strategies For Sustainability Programme The Strategies For Sustainability Program of IUCN works to strengthen strategic planning policy and implementation skills aimed at sustainability development at global national and local levels Working with networks of strategy practitioners from member governments partner institutions and NGOs the programme assists in the conceptual development and analysis of experience of strategies the development of a range of strategic planning and action planning skills and improved methods of assessing human and ecosystem well being Originally published in 1996      **Strategy and Competitiveness in Latin American Markets** Urs P. Jäger, Vijay Sathe, 2014-12-31 Using a combination of thorough research and practical examples Strategy and Competitiveness in Latin American Markets explains how the concept of the sustainability frontier that the book develops resolves the long running debate on whether sustainability requires trade offs or not      **Fragile Lands Of Latin America** John O. Browder, 2019-04-11 This book of selected research papers originally presented at the Symposium of Fragile Lands of Latin America The Search for Sustainable Uses presents some fresh evidence of the viability of a few non conventional strategies for natural resource development and management      *The Labyrinth of Sustainability* Daniel C. Esty, 2019-01-31 The Labyrinth of Sustainability offers the first comprehensive effort to analyze corporate sustainability systematically in the Latin American context and to extract lessons for companies across the developing world Featuring an introduction by the prizewinning author and Yale professor Daniel Esty the book starts off with examining the sustainability imperative the notion that businesses must work toward sustainability to be successful in today's marketplace The 12 chapters that follow present a collection of carefully developed and tightly framed case studies from companies across Latin America highlighting how they are addressing this imperative Contributions from leading experts around the region bring a freshness and authenticity as well as a nuanced and grounded approach that make this volume a must read for business leaders government officials non governmental organization advocates journalists and academics in Latin America and across the world      *Environment and Development in Latin America* David Goodman, M. R. Redclift, 1991 An examination of how Latin America originally viewed by outsiders as a storehouse of natural resources which could be translated into wealth was not sustained in developmental terms in the colonial period Her ambivalent relationship

with the developed world is analyzed to the present day      Regional Workshop on Development and Implementation of Local Strategies for Sustainability ,1996      Financing Sustainability in Latin America and the Caribbean Ramón López,1994

*Brewing a Sustainable Future* Monique Joy Barry,2004      **Strategic Options for Latin America in the 1990s** Colin I.

Bradford,1992      *Nontimber Forest Products in the United States* Eric T. Jones,Rebecca Jean McLain,James F.

Weigand,2002 A quiet revolution is taking place in America s forests Once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized Now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager This book provides the first comprehensive examination of nontimber forest products NTFPs in the United States illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them As the first extensive national overview of NTFP policy and management specific to the United States it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of NTFPs The contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests      Environment & Planning A ,2006-07      *Toward an Environmental Strategy for Latin America and the Caribbean* ,1990      **Toward Inclusive Development in Latin**

**America** Eva Paus,Rafael Domínguez,2026-01-07 A major contribution to the analysis of how to fulfill the triple dimensions of sustainable development economic growth social development and environmental sustainability Jos Antonio Ocampo Professor at Columbia University former Minister of Finance of Colombia former UN Under Secretary General for Economic and Social Affairs and former Executive Secretary of the Economic Commission for Latin America and the Caribbean The

global green transition presents a unique opportunity for resource rich Latin American nations to leverage natural assets to reduce problematic structural barriers while expanding social inclusion and strengthening responses to climate change This book examines why coordinated and proactive development strategies aligned with emerging global sustainability imperatives are essential for achieving these goals It outlines the contours of an inclusive green development strategy placing a green developmental state at the center and emphasizing the role of broadly defined industrial policies Drawing on heterodox economics and international political economy Eva Paus and Rafael Domínguez analyze how Latin American governments can respond to current economic and geopolitical pressures Systemic change is possible if states adopt environmental developmental roles pursue active non alignment and engage in more coordinated foreign policy efforts Readers will gain insight into the political and economic conditions that shape the feasibility of inclusive green development The resulting book breaks down the strategic choices available to governments seeking to integrate sustainability with long term economic transformation and inclusion It offers a grounded perspective on how policy direction institutional capacity and international positioning can be used to navigate the challenges of our times

Regenerative and Sustainable Futures for Latin America and the Caribbean Maria Alejandra Gonzalez-Perez, 2022-01-27 Regenerative and Sustainable Futures for Latin America and the Caribbean explores how to build sustainable futures for Latin America and the Caribbean presents recommendations for policy and decision makers to shape sustainable futures and reflects on the value of collective action for a region that deserves a better tomorrow

*The Strategic Presidency* James P. Pfiffner, 1996 The best book on the importance of presidential transitions to the long term successes of administrations Contemporary scholars and practitioners will be especially interested in Pfiffner's treatment of the problems that surrounded the Clinton administration's troubled start Mark J Rozell author of *Executive Privilege*

Environment and Planning, 2005 Publishes interdisciplinary research on issues of Government and Policy with an international perspective Committed to a broad range of policy questions not just those related to government and public policy Topics covered include nonstate agents private public collaboration and NGOs nongovernmental organisations All areas of economic social and environmental institutions and policy are included Disciplines from which papers are derived include political science planning geography economics law sociology and public administration
