## Strictly Speak Pers:

**Soul, Body, and Survival** Kevin Corcoran, 2001 How are soul and body related to one another Are human beings immaterial souls or complex physical organisms Will we survive the death of our bodies Does only the dualist view allow the possibility of life after death This collection brings together cutting edge research on the metaphysics of human nature and the possibility of post mortem survival Kevin Corcoran's collection *Soul Body and Survival* includes chapters from those who embrace traditional soul body dualism those who assert person body identity and those who propose entirely new views that fall outside the categories of monism and dualism The first book to connect the metaphysics of persons with the belief in life after death thus intersecting with theological as well as philosophical inquiry it blurs the divide between metaphysics and the philosophy of mind

**The Person and the Common Life** James Hart, 1992-10-31 This Husserl based social ethics claims that the properly philosophical life i.e. one lived within the noetic noematic field is not cut off from action Indeed the ethical and political dimensions of the person are disclosed through various reductions At the passive synthetic level as well as at the higher founded levels of personal constitution a basic sense of will emerges the telos of which is a godly intersubjective self ideal This truth of will is inseparably an ought and an is involving moral categoriality as a way of letting the good of others be part of one's own Both moral categoriality and the polis actuate the latent first person plural dative of manifestation which emerges with a common world Thereby they actuate also senses of the common life which can develop to community as a higher order person This leads to a eutopian anti statist theory of the polis and common good which has affinity with some communitarian anarchist and Green views

**The Antiquary**, 1880 [The Person at the Crossroads: A Philosophical Approach](#) James Beauregard, Giusy Gallo, Claudia Stancati, 2020-09-01 The *Person at the Crossroads: A Philosophical Approach* brings together scholars from around the world who share a common interest in the nature and activity of the human person Personhood is examined from a variety of perspectives both philosophical and theological drawing on the rich traditions of both Western and Eastern thought Readers will find themselves on a journey through the works of past and current scholars including Confucius Augustine David Hume Immanuel Kant Horace Bushnell Maurice Merleau Ponty Michael Polanyi Rudolf Carnap Karol Wojtyla Erazim Kohak and many other authors who touch upon the personalist tradition and the human person This volume will be of particular interest to readers interested in the nature of the human person as well as philosophy and theology undergraduate and graduate students and professors teaching in these areas

Aristotle's Theory of Abstraction Allan Bäck, 2014-07-02 This book investigates Aristotle's views on abstraction and explores how he uses it In this work the author follows Aristotle in focusing on the scientific detail first and then approaches the metaphysical claims and so creates a reconstructed theory that explains many puzzles of Aristotle's thought Understanding the details of his theory of relations and abstraction further illuminates his theory of universals Some of the features of Aristotle's theory of abstraction developed in this book include abstraction is a relation perception and knowledge are types of abstraction the objects generated by abstractions are *relata* which can serve as subjects in their own right whereupon they can appear as items in other categories The author goes on to look at how Aristotle distinguishes the concrete from the abstract paronym how induction is a type of abstraction which typically moves from the perceived individuals to universals and how Aristotle's metaphysical vocabulary is relational Beyond those features this work also looks at how of universals accidents forms causes and potentialities have being only as abstract aspects of individual substances An individual substance is identical to its essence the essence has universal features but is the singularity making the individual substance what it is These theories are expounded within this book One main attraction in working out the details of Aristotle's views on abstraction lies in understanding his metaphysics of universals as abstract objects This work reclaims past ground as the main philosophical tradition of abstraction has been ignored in recent times It gives a modern version of the medieval doctrine of the threefold distinction of essence made famous by the Islamic philosopher Avicenna
