Strikes Bombs Bullets:

Bombs, Bullets and the Border Patrick Mulroe, 2017-03-13 *Bombs Bullets and the Border* examines Irish Government Security Policy and the role played by the Garda and Irish Army along the Northern Irish border during some of the worst years of the Troubles Mulroe knits together an impressive range of sources to delve into the murky world occupied by paramilitaries and those policing the border The ways in which security forces under Fianna Fáil and Fine Gael governments secretly cooperated with the British Army and the RUC exacerbating tensions with republican groups in the border counties are meticulously examined Mulroe also reveals the devastating consequences of this approach which left a loyalist threat unheeded and the 26 counties open to attack The findings of the Smithwick Tribunal and the upheaval of Brexit have kept the issue of Irish border security within the public eye but without a complete awareness of its consequences *Bombs Bullets and the Border* is vital reading in understanding what a secure border entails and how it affects the lives of those living within its hinterland

Strikes, bombs & bullets Jules Archer, 1972 *Strikes* Joseph Jacob Senturia, 1935 Combat Chronology: 1941-1945 ,

A History Of The B-17 Flying Fortress in Over 400 Photographs, Stories And Analysis: Including The U.S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - American Air Power in WWII , 2015-08-01
PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were

established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted Effects of Two Thousand, One Thousand and Five Hundred Pound Bombs on Japanese Targets United States Strategic Bombing Survey.
