Kaplan,2025-01-14 A stunning exploration of the Greater Middle East where lasting stability has often seemed just out of reach but may hold the key to the shifting world order of the twenty first century Engaging Even those who resist Kaplan s tragic sensibility have much to learn from his look at the emerging Middle East and its recent history National Review  
FINALIST FOR THE OVERSEAS PRESS CLUB S CORNELIUS RYAN AWARD The Greater Middle East which Robert D Kaplan defines as the vast region between the Mediterranean and China encompassing much of the Arab world parts of northern Africa and Asia existed for millennia as the crossroads of empire Macedonian Roman Persian Mongol Ottoman British Soviet American But with the dissolution of empires in the twentieth century postcolonial states have endeavored to maintain stability in the face of power struggles between factions leadership vacuums and the arbitrary borders drawn by exiting imperial rulers with little regard for geography or political groups on the ground In the Loom of Time Kaplan explores this broad fraught space through reporting and travel writing to reveal deeper truths about the impacts of history on the present and how the requirements of stability over anarchy are often in conflict with the ideals of democratic governance In The Loom of Time Kaplan makes the case for realism as an approach to the Greater Middle East Just as Western attempts at democracy promotion across the Middle East have failed a new form of economic imperialism is emerging today as China s ambitions fall squarely within the region as the key link between Europe and East Asia As in the past the Greater Middle East will be a register of future great power struggles across the globe And like in the past thousands of years of imperial rule will continue to cast a long shadow on politics as it is practiced today To piece together the history of this remarkable place and what it suggests for the future Kaplan weaves together classic texts immersive travel writing and a great variety of voices from every country that all compel the reader to look closely at the realities on the ground and to prioritize these facts over ideals on paper The Loom of Time is a challenging clear eyed book that promises to reframe our vision of the global twenty first century *The End of the American Era* Charles Kupchan,2007-12-18 Refuting the conventional wisdom that the end of the Cold War cleared the way for an era of peace and prosperity led solely by the United States Charles A Kupchan contends that the next challenge to America s might is fast emerging It comes not from the Islamic world or an ascendant China but from an integrating Europe that is rising as a counterweight to the United States Decades of strategic partnership across the Atlantic are giving way to renewed geopolitical competition The waning of U S primacy will be expedited by America s own ambivalence about remaining the globe s guardian and by the impact of the digital age on the country s politics and its role in the world By deftly mining the lessons of history to cast light on the present and future Kupchan explains how America and

the world should prepare for the more complex more unstable road ahead
