

THE DEVIL'S HOLE AND STORY OF HISTORIC MASSACRE

About three and one-half miles below Niagara Falls on the American side is the Devil's Hole, a rugged chasm in the bank of the river, between 100 and 200 feet deep. Overhanging this dark cavern is a perpendicular precipice, from the top of which falls a small stream, usually dry in summer, named the "Bloody Run," made such during the historic "Devil's Hole Massacre" which occurred during the French and Indian War Sept. 14, 1763. On that morning a small detachment of regulars convoying an empty wagon train returning from Fort Schlosser to Fort Niagara was ambushed in the woods at a small creek on the brink of the Devil's Hole. Men and horses were driven over the precipitous cliffs. Some of the bodies caught in the trees and brush; others crashed 300 feet below. The little creek ran red with blood and has ever since been called "Bloody Run." The massacre was done by a large party of Seneca braves. Sir William Johnson, in command of the district, officially reported that five officers and 64 privates were killed, besides the civilians in charge of the wagons. But three persons escaped, two civilians and a drummer boy, the most prominent being John Stedman.

The Devils Hole Massacre A True Story:

The Business of Killing Indians William S. Kiser,2025-03-18 How colonial conquest was driven by state sponsored profit driven campaigns to murder and mutilate Indian peoples in North America From the mid 1600s through the late 1800s states sponsored scalp bounties and volunteer campaigns to murder and mutilate thousands of Indians throughout North America Since central governments in Amsterdam Paris London Mexico City and Washington DC failed to provide adequate military support and financial resources for colonial frontier defense administrators in regional capitals such as New York Qu bec City New Orleans Boston Ciudad Chihuahua Austin and Sacramento took matters into their own hands At different times and in almost every part of the continent they paid citizens for killing Indians taking Indians captive scalping or beheading Indians and undertaking other forms of performative violence As militant operatives and civilians alike struggled to prevail over Indigenous forces they considered barbaric and savage they engaged in not just plundering slaving and killing but also dismembering corpses for symbolic purposes and for profit Although these tactics mostly failed in their intent to exterminate populations state sponsorship of indiscriminate violence took a significant demographic toll by flooding frontier zones with murderous units whose campaigns diminished Indigenous power reduced tribal populations and forced weakened survivors away from traditional homelands High wages for volunteer campaigning along with cash bounties for Indian body parts and the ability to take captives and keep valuable plunder promoted a state sponsored profit opportunity for civilians
