Professor Weiss here presents his own idea of the gradual passage from medieval to more modern methods of scholarship which brought about the Renaissance Humanism and the Culture of Renaissance Europe Charles G. Nauert

(Jr.),1995-09-28 This new textbook provides students with a highly readable synthesis of the major determining features of the European Renaissance one of the most influential cultural revolutions in history Professor Nauert's approach is broader than the traditional focus on Italy and tackles the themes in the wider European context He traces the origins of the humanist movement and connects it to the social and political environments in which it developed In a tour de force of lucid exposition over six wide ranging chapters Nauert charts the key intellectual social educational and philosophical concerns of this humanist revolution using art and biographical sketches of key figures to illuminate the discussion The study also traces subsequent transformations of humanism and its solvent effect on intellectual developments in the late Renaissance The Italian Renaissance Harold Bloom,2004 Analyzes the literary trends of the Italian renaissance period Humanism in

some of the most preeminent Renaissance scholars active today the essays of this volume give fresh and illuminating analyses of important aspects of Renaissance humanism such as the time and causes of its origin its connection to the papal court and medieval traditions its classical learning its religious and literary dimensions and its *dramatis personae* Their interpretations are varied to the point of being contradictory The essays bear the imprint of the work of the eminent scholars of the second half of the twentieth century especially Kristeller's and demonstrate an awareness of the various modes of critical inquiry that have prevailed in recent years As such they are an important exemplar of current scholarship on Renaissance humanism and are therefore indispensable to the scholar who wishes to explore this pivotal cultural movement Contributors include Robert Black Alison Brown Riccardo Fubini Paul F Grendler James Hankins Eckhard Kessler Arthur F Kinney Angelo Mazzocco Giuseppe Mazzotta Massimo Miglio John Monfasani Charles G Nauert and Ronald G Witt

Historical Truth in Fifteenth-Century Italy Giuliano Mori,2024 While humanists agreed on identifying the main requirement of the historical genre with truthfulness they disagreed on their notions of historical truth Some authors equated historical truth with verisimilitude thus harmonizing the quest for truth with other ingredients of their histories such as their political utility and rhetorical aptness Others instead rejected the notion of verisimilitude identifying historical truth with factuality Accordingly they sought to produce bare and exhaustive accounts of all the things that pertained to their

historical explorations often resorting to innovative disciplines such as archeology philology and the history of institutions The humanist historiographical debate is especially significant because the notion of verisimilitude encompassed crucial elements required for the development of methods of critical assessment By perceiving verisimilitude and factuality as irreconcilable Quattrocento humanists reached a critical impasse those who were interested in factual truth mostly lacked the means to ascertain it while those that developed embryonic notions of historical criticism were not eminently concerned with the factual account of the past This critical weakness exposed humanists to considerable risks including that of accepting non verisimilar historical forgeries passed off as factual Such forgeries eventually served as a testing ground for sixteenth and seventeenth century scholars who sought to restore factual truth by means of critical criteria grounded in verisimilitude thus overcoming the humanist impasse Historical Truth in Fifteenth Century Italy addresses Renaissance history philosophy rhetoric and jurisprudence to shed light on how humanists conceptualized truth and more specifically historical truth

Humanist and Scholastic Poetics, 1250-1500 Concetta Carestia Greenfield,1981 After two introductory chapters on the humanist and scholastic Aristotelian traditions the author devotes thirteen chapters to the positions taken by various influential participants in the debates on Humanism versus Scholasticism Included in this close analysis are Petrarch Boccaccio Salutati Politian and others
