The Debated Lands British And American Representations Of The Balkans:

Imagining Yugoslavia in Mid-Century British and Irish Writing Guy Woodward,2026-01-09 During the Second World War Britain was both strategically and imaginatively invested in Yugoslavia The Balkan state was celebrated and idealized in home front propaganda as a site of resistance a locus of spirituality and then as a brave communist experiment containing the promise of utopia After the war many hailed Tito s Yugoslavia as an exceptional socialist society steering a course between the extremes of western free market capitalism and Soviet repression while others cursed the regime as totalitarian or mourned the loss of a picturesque Ruritanian kingdom to a communist regime From the BBC to Ealing Studios from special operations memoirs to Cold War travelogues this book explores and interrogates a peculiar fascination with Yugoslavia in mid twentieth century British and Irish literature and culture Exploring representations of Yugoslavia in print over the airwaves and on screen it examines how and why many of the key British and Irish writers of the era became drawn into military and political debates around the fate of the country The cast of characters is extensive and colourful and includes Rebecca West author of the colossal modernist travelogue *Black Lamb and Grey Falcon* 1941 the broadcaster and dramatist Denis Johnston the poet and radio dramatist Louis MacNeice novelists Lawrence Durrell and Anthony Powell the historian E P Thompson essayist Hubert Butler special operations agent turned Conservative MP Fitzroy Maclean and the Labour politicians Nye Bevan and Barbara Castle Projections of other countries reveal much about culture and politics closer to home by tracing the various roles played by this now extinct Balkan state in the cultural imaginations of the declining imperial metropole and its former colony this new cultural history illuminates forgotten lines of transmission between north west and south east Europe Drawing on extensive archival research *Imagining Yugoslavia in Mid-Century British and Irish Writing* is the first dedicated study of British and Irish cultural engagement with Yugoslavia in this period and makes a serious contribution to the cultural and intellectual history of the Second World War and Cold War

American Representations of Post-Communism Andaluna Borcila,2014-07-11 With the televised events of 1989 territories of Eastern and Central Europe that had been marked as impenetrable and inaccessible to the Western gaze exploded into visibility As the narratives of the Cold War crumbled new narratives emerged and new geographies were produced on and by American television Using an understudied archive of American news broadcasts and tracing their flashes and echoes through travel guides and narratives of return written by Eastern European Americans this book explores American ways of seeing and mapping communism s disintegration and the narratives articulated around post communist sites and subjects

The Balkans in Travel Writing Marija Knežević,2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region s path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul

Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region. The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths. More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology. Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches. Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature, linguistics, history, sociology, anthropology, ethnology, political sciences, and geography. [Illyria in Shakespeare's England](#) Lea Puljcan Juric, 2019-06-12. *Illyria in Shakespeare's England* is the first extended study of the eastern Adriatic region often referred to in the Renaissance by its Graeco-Roman name Illyria in early modern English writing and political thought. At first glance the absence of earlier studies may not be surprising that area may seem significant only to critics pursuing certain specialized questions about Shakespeare's *Twelfth Night* which is set in Illyria. But in fact it is not only often misrepresented in the discussions of that play but also typically ignored in the critical conversation on English prose romances, poems, and other plays that feature Illyria or its peoples. Some rarely read others well known including Shakespeare's *Comedy of Errors*, *2 Henry VI*, *Measure for Measure*, and *Cymbeline*. Lea Puljcan Juric explores the reasons for such views by engaging with larger questions of interest to many critics who focus on subjects other than geographic regions such as othering, religion, race, and the development of national identity among other issues. She also broadens the conversation on these familiar problems in the field to include the impact of post Renaissance notions of the Balkans on the erasure of Illyria from Shakespeare studies. Puljcan Juric studies the encounters of the English with the ancient and early modern Illyrians through their Greek and Roman heritage, geographies, histories, and travelogues written in a variety of European polities including Illyria itself, religious conflict after the Reformation, and the threat of Islam and international politics and commerce. These considerations show how Illyria's geopolitical position among the Ottoman Empire, Habsburg Empire, and Venice, its national struggles as well as its cultural heterogeneity figured in English interests in the eastern Mediterranean and informed English ideas about ethnicity, nationhood, and religion. In Shakespeare studies, however, critics have consistently cast *Twelfth Night*'s Illyria as a utopia, an enigma, or a substitute for England, Italy, or Greece. Arguing that twentieth century politics and negative conceptions of the eastern Adriatic as part of the Balkans have underwritten this erasure of Illyria from our perspective on the field, Puljcan Juric shows how entrenched cultural hierarchies tied to elitism and colonial politics still inform our analyses of literature. She invites scholars to recognize that for Shakespeare and his contemporaries Illyria is the site of important socio-political and cultural struggles during the period, some shared with neighboring areas, others geographically specific, that invite dynamic historical and literary scrutiny. [Balkan Transnationalism at the Time of Neoliberal Catastrophe](#) Dušan I. Bjelić, 2019-03-27. Offering a fresh look at the ways in which neoliberalism has claimed to cure the Balkan region of its ethnic

particularities under the pretext of Europeanization this book shows how the reconfiguration of the economic political and cultural landscape of the region has resulted in its functioning as Europe's neocolony The contributors to this volume engage in postcolonial analysis of the Balkans past and present coloniality by way of interrogating race racism trauma film and global capitalism They challenge the idea of a United Europe that rests on the assumption that the European Union's newness represents both a clean slate and the right to shift ownership of its colonial histories to former colonial subjects and their national histories Taken as a whole the volume seeks to transform Europe's colonial amnesia into postcolonial awareness and to speak from within the Balkans as a site of Europe's neocolony As it critically interrogates a neocolonial reconfiguration of the Balkans as a massive social overhaul which includes at once global integration and local social disintegration this book will be of interest to those studying the region as well as postcolonialism in general This book was originally published as a special issue of *Interventions Journal of Postcolonial Studies* **Balkan Departures** Wendy Bracewell,Alex Drace-Francis,2009-05-01 In writings about travel the Balkans appear most often as a place travelled to Western accounts of the Balkans revel in the different and the exotic the violent and the primitive traits that serve according to many commentators as a foil to self congratulatory definitions of the West as modern progressive and rational However the Balkans have also long been travelled from The region's writers have given accounts of their travels in the West and elsewhere saying something in the process about themselves and their place in the world The analyses presented here ranging from those of 16th century Greek humanists to 19th century Romanian reformers to 20th century writers socialists and men of the world suggest that travellers from the region have also created their own identities through their encounters with Europe Consequently this book challenges assumptions of Western discursive hegemony while at the same time exploring Balkan Occidentalisms **Bibliography of Sources on the Region of Former Yugoslavia Volume III** Rusko Matulić,1998 [Yugoslavia in the British Imagination](#) Samuel Foster,2021-06-17 Despite Britain entering the 20th century as the dominant world power public discourses were imbued with a cultural pessimism and rising social anxiety Through this study Samuel Foster explores how this changing domestic climate shaped perceptions of other cultures and Britain's relationship to them focusing on those Balkan territories that formed the first Yugoslavia from 1918 to 1941 Yugoslavia in the British Imagination examines these connections and demonstrates how the popular image of the region's peasantry evolved from that of foreign Other to historical victim suffering at the hand of modernity's worst excesses and symbolizing Britain's perceived decline This coincided with an emerging moralistic sense of British identity that manifested during the First World War Consequently Yugoslavia was legitimized as the solution to peasant victimization and as Foster's nuanced analysis reveals enabling Britain's imagined and self promoted revival as civilization's moral arbiter Drawing on a range of previously unexplored archival sources this compelling transnational analysis is an important contribution to the study of British social history and the nature of statehood in the modern Balkans [The Debated Lands](#) Andrew Hammond,2007 A volume

focusing on the popular genre of travel writing the book examines over 400 British and American literary texts in order to outline and account for the multiple ways in which the Balkans have been represented from the mid nineteenth century to the present day The British National Bibliography Arthur James Wells,2007 **The Parliamentary Debates (official Report)**.
