The Desert Generals:

The Desert Generals Correlli Barnett, 2011-07-14 A classic account of the Desert Campaign of 1940-43 by a renowned military historian The distinguished historian Correlli Barnett gives here a complete and full account of the Desert Campaign 1940-43 an epic story set in a wasteland where soldiers fought for victory in a tumult of mechanical warfare But **THE DESERT GENERALS** is also the story of five men under the strain of command in battle the commanders who successively led the Allied forces against first the Italians and then the Germans in the ebb and flow of the desert war culminating in the myth of Montgomery and the battle of Alamein a myth that Correlli Barnett sets out to expose as ill founded Brilliantly written **THE DESERT GENERALS** captures at every level the intensity and human drama of a unique and compelling episode in the history of war and warfare

The Desert Generals John Fitchen, 1960 **The Desert Generals**, 200? *The Desert Generals* Correlli Barnett, 1960 *Palestine Between Politics and Terror, 1945-1947* Motti Golani, 2013-03-22 A fascinating look at the end of British rule in Palestine through the eyes of its final high commissioner *How to Think Like an Officer* Reed Bonadonna, 2020-09-01 The U S military invests heavily in time and resources to train its officers to be leaders in the broadest sense forming them not only in military art and science strategy tactics command etc but also in humanistic knowledge character and values as well as how to apply this education on a lightning fast battlefield or within an inertially slow bureaucracy The military develops its leaders at the service academies and in ROTC programs through very specific but also broad and deep education a way of thinking that also has wide application in the civilian world not only in various professional fields that need leaders and thinkers but also among military history enthusiasts who want to understand how officers have thought across time and among American citizens who want and really need to understand how our military leaders think how they advise presidents how they lead on the battlefield In a genre busting book that spans Stackpole's two longstanding military programs reference and history Reed Bonadonna describes how officers think how they ought to think how they develop their skills and how they can improve these skills as well as how average civilians and citizens can learn from the example of military officers and their program of education Bonadonna draws from military history from military arts and science from literature and science and more to show how officers develop their critical thinking and problem solving skills A military officer is often called upon to be not only fighter and leader but also negotiator organizer planner and preparer teacher writer scientist and advisor and needs broad learning This is a deeply learned and insightful book one that cites Lincoln Grant Patton Eisenhower Marshall and Churchill as easily as Sun Tzu and Clausewitz not to mention Homer Plato Joseph Conrad Henry James Wilfred Owen Robert Graves George Orwell Ludwig Wittgenstein Joseph Heller Phil Klay and even Jane Austen The book is descriptive as well as prescriptive and should find eager readers inside the military where officers take seriously their professional education and their professional reading lists as well as outside where many look to the military to military reading lists and to military history to glean lessons for life and work

Advance Britannia Alan Allport, 2025-11-06 By 1942 Churchill faced a vastly different war than the one he d inherited from Neville Chamberlain Britain was no longer alone the Soviets were now an unlikely ally in the East and Pearl Harbor had finally pushed America into action Yet the scale of violence remained unchanged On average seven British men women and children were killed every hour of the Second World War The country would never be the same again In *Advance Britannia* historian Alan Allport reveals the war as it was lived from the battlefields to the ration books in the War Ministry and in the air raid shelters Mixing social history with dramatic storytelling this is a definitive account of the war that reshaped the world

Operations United States. Department of the Army, 1976 *Rommel's Desert Commanders* Samuel W. Mitcham Jr., 2007-02-28 Perhaps the most famous and admired soldier to fight in World War II was Field Marshal Erwin Rommel who achieved immortality as the Desert Fox Rommel s first field command during the war was the 7th Panzer Division also known as the Ghost Division which he led in France in 1940 During this campaign the 7th Panzer suffered more casualties than any other division in the German Army at the same time inflicting a disproportionate number of casualties upon the enemy It took 97 486 prisoners captured 458 tanks and armored vehicles 277 field guns 64 anti tank guns and 4 000 to 5 000 trucks It captured or destroyed hundreds of tons of other military equipment shot down 52 aircraft destroyed 15 more aircraft on the ground and captured 12 additional planes It destroyed the French 1st Armored Division and the 4th North African Division punched through the Maginot Line extension near Sivry and checked the largest Allied counteroffensive of the campaign at Arras When France surrendered the Ghost Division was within 200 miles of the Spanish border No doubt about it Rommel had proven himself a great military leader who was capable of greater things His next command in fact would be the Afrika Korps where the legend of the Desert Fox was born Rommel had a great deal of help in France much more than his published papers suggest His staff officers and company battalion and regimental commanders were an extremely capable collection of military leaders that included 12 future generals two of them SS and two colonels who briefly commanded panzer divisions but never reached general rank They also included Colonel Erich von Unger who would no doubt have become a general had he not been killed in action while commanding a motorized rifle brigade on the Eastern Front in 1941 as well as Karl Hanke a Nazi gauleiter who later succeeded Heinrich Himmler as the last Reichsfuehrer SS No historian has ever recognized the talented cast of characters who supported the Desert Fox in 1940 No one has ever attempted to tell their stories This book remedies that deficiency
