Politics at the Seaside Nigel Morgan, Annette Pritchard, 1999 Power and politics at the seaside opens by locating tourism within the wider leisure experience addressing the seaside holiday as a historical and sociological phenomenon It examines the ability of the local state to shape resort development through advertising facility provision and transport policies The book contests that politics and power relations are central to the development of the modern seaside resort Jacket

Stokes, 1947 **The Sketch**, 1895 The Lancet, 1882 **The Seaside, Health and the Environment in England and Wales Since 1800** John Hassan, 2003 The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public's imagination Particular account is paid to the interwar years when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious

questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection **The pharmaceutical journal and transactions** ,1880 **Reynolds' illustrated guide and apartment directory to ... England and Wales** Reynolds, Neale and co,1894 **Belgravia** ,1884 A Treatise on the Law of Waters John Melville Gould,1883 **Classic Reviews in Tourism** Chris Cooper,2003 Drawing together some of the leading authors in tourism this book provides state of the art reviews of research in fields of tourism *Population and Society in an East Devon Parish* Pamela Sharpe,2002 This book is a vivid and refreshing consideration of everyday life in a town visited by plague Civil War religious radicalism and industrial changes What really happened in the place once described as the most rebellious town in Devon The town of Colyton in Devon has been intensively analysed by historians interested in population trends but this book combines demographic information with extensive details of the economy society and local politics of the parish and region This finely grained micro history stresses the diversity of local experience and exposes many facets of the lives of ordinary individuals during the period The book provides valuable new material on religious radicalism agricultural changes economic development local politics poverty and welfare policies as well as the history of the family and lifecycle in a small town
