The Dialectics Of Schizophrenia:

The Dialectics of Schizophrenia Philip Thomas, 1997 Defining the nature of schizophrenia continues to be one of the central challenges left to psychiatry and medical science The Dialectics of Schizophrenia summarizes the various approaches and points up their weaknesses and strengths Breaking through Schizophrenia Wilfried Ver Eecke, 2019-05-10 Breaking through Schizophrenia builds on the ideas of Jacques Lacan who argued that schizophrenia is a deficient relationship to language in particular the difficulty to master the metaphoric dimension of language which children acquire by the Oedipal restructuring of the psyche This book is thus a countercultural move to present a less damaging view and a more efficient treatment method for schizophrenic persons Through a collection of published and unpublished articles Ver Eecke traces the path of Lacanian thought He discusses the importance of language for the development of human beings and examines the effectiveness of talk therapy through case studies with schizophrenic persons Psychological Interventions in Early Psychosis John F. M. Gleeson, Patrick D. McGorry, 2004-07-16 Psychological Interventions in Early Psychosis provides a comprehensive overview of the emerging research and clinical evidence base for psychological treatments across the phases of early psychosis Beginning with identified at risk young people the text continues through to those in acute and recovery phases to the needs of patients with persistent symptoms This practical treatment handbook draws upon the expertise of several internationally recognised clinical and research programs integrates reviews of the relevant research literature with illustrative case examples covers critical issues for the clinician in focal chapters on suicide prevention comorbid cannabis abuse and family work describes several modalities of treatment such as multi family psychoeducation group work psychodynamic and cognitive behavioural approaches Specialist early psychosis services are developing rapidly worldwide Psychological Interventions in Early Psychosis will be an essential resource for clinicians and service leaders alike **The Deconstructive Owl of Minerva** Lillian Francis Burke, 2013-10-03 The Deconstructive Owl of Minerva An Examination of Schizophrenia through Philosophy Psychoanalysis and Postmodernism takes as its project the articulation of the language of schizophrenia as it inscribes itself between the self and other It takes into account Georg W F Hegel s account of self consciousness as a master slave relation A reading of Jacques Lacan provides access to the narrative self in terms of the mirror stage as the recognition of the self as other By a further reading of postmodern theorists this book shows that what has been named schizophrenia calls for a deconstructive strategy that operates with the divergence between pharmacological treatment and the understanding of the language of the schizophrenic condition This difference will emphasize language as plural plurivalent polyphonic and polylogical This book essentially seeks to circumvent the label of schizophrenia and to provide alternative ways to understand schizophrenic language in order to culturally rearticulate its effects in society Postmodern and deconstructive modes of access to the languages of desire dispersal and plurivalence that are associated with schizophrenic conditions can help to open up spaces of understanding that are rendered impossible

through symptomatic treatment models **The Challenge of Schizophrenia** Torsten Herner,1982 **Schizophrenia** Glenn Shean,1978 *Schizophrenia* Alphonse de Waelhens,1978 **The Dialectics of Marxist Theory** William Bunge,1968 **The Leaves of Spring** Aaron Esterson,1970 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 *The Dialectics of Late Capital and Power* Erik Sherman Roraback,2007 This essay offers up a provocative new theoretical tack on the topic area of the dialectic of capital the dialectic of cruelty and the dialectic of power and of their intricate and self differential inter relationships and forms of being under late capitalism as delineated in selected narratives of two major Occidental novelists Henry James and his key paper friend Honor c de Balzac it does so from a genuinely inter disciplinary perspective that draws from heterogeneous waves of critical theory broadly conceived having thus something to say to contemporary culture both of general and of academic interest alike Key concepts elucidated and fleshed out in the work for the first time in a volume length and systematic way in the study of the humanities in order to get the show on the road include the theoretical notions and arguments of true power and capital as un power TM non power TM un capital TM and non capital TM other suchlike examples punctuate the essay that attempt to meet precise theoretical and practical requirements for a twenty first century increasingly submitted to the logic of capitalist power The present study also thus offers new ways of thinking about the enormous and age long subject of big power and capital that would in the final tally want to align itself with such prophetic traditions of thought as what Gilles Deleuze and F c lix Guattari for example have termed the New Earth TM **Psychosis and Spirituality** Isabel Clarke,2001 Spirituality and psychosis both inhabit the region where ordinary reason ceases to function and barriers break down The connection between them is evident what is remarkable is how conventional thinking obscures the connection This book challenges conventional understandings with a radical new perspective The interface between psychosis and spirituality is explored drawing on key research and latest developments from a wide spread of disciplines Gordon Claridge on schizotypy Peter Fenwick on the neuropsychological perspective Neil Douglas Klotz on a new understanding of spirituality Peter Chadwick on the mystical side of psychosis David Kingdon on CBT for psychosis and religious delusions are just five of the 12 distinguished contributors to this book This new perspective will be important for those professionally interested in both psychosis and spirituality therapists priests etc people seeking a well grounded framework for their own direct experience in this area and everyone interested in the latest thinking and research on this topic To Free a Generation: The Dialectics of Liberation ,1969 **Construction of Power and Authority in Psychiatry** Phil Barker,Chris Stevens,2000 Psychiatric services are facing a crisis in the post modern world The organisational failure of community care has been accompanied by a growing confidence in user led initiatives and a growth in alternatives to the paternalism of psychiatric medicine Construction of Power and Authority in Psychiatry explores some of the key philosophies and practical issues that will concern all mental health professionals as they move forward into the new millennium Featuring contributions by leading international authorities from psychiatric medicine
