The Gate to  
Women's Country

# The Gate To Womens Country

**Rosina Ehmann**

## **The Gate To Womens Country:**

*The Gate to Women's Country* Sheri S. Tepper, 2011-09-29 The Gate to Women's Country tells of a society that exists three hundred years after our own has nearly destroyed itself. Now male warriors are separated from women at an early age and live in garrisons plotting futilely for the battles which must never be fought again. Inside the women's towns education, arts and science flourish. But for some like Stavia there is more to see. Her sojourn with the man she is forbidden to love brings into sharp focus the contradictions that define their lives. And when tragedy strikes Stavia is faced with a decision she never thought she would make a decision that could forever change their world. *The Gate to Women's Country* is a novel that rivals Margaret Atwood's *The Handmaid's Tale* in scope, impact and the sheer power of its storytelling.

**The Gate to Women's Country** Sheri S. Tepper, 1993-02-01 Lively thought provoking the plot is ingenious packing a wallop of a surprise. Tepper knows how to write a well-made, moving story with strong characters. She takes the mental risks that are the lifeblood of science fiction and all imaginative narrative. Ursula K. LeGuin, *Los Angeles Times*. Since the flames died three hundred years ago, human civilization has evolved into a dual society: Women's Country, where walled towns enclose what's left of past civilization nurtured by women and a few nonviolent men, and the adjacent garrisons where warrior men live the lost brothers, sons and lovers of those in Women's Country. Two societies, two competing dreams, two ways of life kept apart by walls stronger than stone. And yet there is a gate between them. Tepper not only keeps us reading, she provokes a new look at the old issues. *The Washington Post*. Tepper's cast of both ordinary and extraordinary people play out a powerful drama whose significance goes beyond sex to deal with the toughest problem of all: the challenge of surmounting humanity's most dangerous flaws so we can survive despite ourselves. *Locus*

Magill's Guide to Science Fiction and Fantasy Literature: Dream, 1996. These four volumes cover 791 books or series, 238 of them published during the 1980s and 1990s; the entries are 1,000 words long for single books and 1,500 for series, with a one-sentence summary beginning each entry, followed by bibliographical information. Volume 4 contains an extensive bibliography of critical works on science fiction and fantasy, a list of major award winners, a genre index, and a booklist.

*A Little Country Girl* Susan Coolidge, 1885

**The Utopian Fantastic**

Martha A. Bartter, 2004-04-30 Utopia forms a major aspect of human desire, one that is as important as religion. Understanding utopia and the ways in which it can collapse into dystopia is crucial in many disciplines. Fantastic literature, including science fiction and fantasy, is the only form of literature that takes utopia/dystopia seriously. Therefore, analysis of these works provides a basis for serious experimentation in social science. In this volume, critics analyze contemporary literary thought experiments such as *1984* and *We*. They show how utopian experiments can easily slide into dystopia. Exploring these fictional sociocultural/political experiments gives us new ways to think about our lives and culture. While literature history and political science professors may find this book useful, it can also serve as a call to arms to anyone dedicated to maintaining freedom and humane living in the world today.
