**Hidden Genocides** Alexander Laban Hinton, Thomas La Pointe, Douglas Irvin-Erickson, 2013-12-18 Why are some genocides prominently remembered while others are ignored hidden or denied Consider the Turkish campaign denying the Armenian genocide followed by the Armenian movement to recognize the violence Similar movements are building to acknowledge other genocides that have long remained out of sight in the media such as those against the Circassians Greeks Assyrians the indigenous peoples in the Americas and Australia and the violence that was the precursor to and the aftermath of the Holocaust The contributors to this collection look at these cases and others from a variety of perspectives These essays cover the extent to which our biases our ways of knowing our patterns of definition our assumptions about truth and our processes of remembering and forgetting as well as the characteristics of generational transmission the structures of power and state ideology and diaspora have played a role in hiding some events and not others Noteworthy among the collection s coverage is whether the trade in African slaves was a form of genocide and a discussion not only of Hutu brutalizing Tutsi victims in Rwanda but of the execution of moderate Hutus as well Hidden Genocides is a significant contribution in terms of both descriptive narratives and interpretations to the emerging subfield of critical genocide studies Contributors Daniel Feierstein Donna Lee Frieze Krista Hegburg Alexander Laban Hinton Adam Jones A Dirk Moses Chris M Nunpa Walter Richmond Hannibal Travis and Elisa von Joeden Forgey

*Gendercide and Genocide* Adam Jones,2004 The most wide ranging book ever published on gender selective mass killing or gendercide this collection of essays is also the first to explore systematically the targeting of non combatant battle age males in various wartime and peacetime contexts Representing such fields as sociology political science psychology queer studies and human rights activism the contributors explore themes and issues outlined by editor Adam Jones in the book s opening essay In that article which provoked considerable debate when it was first published in 2000 Jones argues that throughout history and around the world the population group most consistently targeted for mass killing and state backed oppression are non combatant men of roughly fifteen to fifty five years of age Such males Jones contends are typically seen as the group posing the greatest danger to the conquering force Jones s article also examines the use of gendercidal institutions such as female infanticide witch hunts military conscription and forced labor against both women and men The subsequent essays some original some drawn from a special issue of the Journal of Genocide Research and other sources expand diversify and criticize this framing of gendercide They range from a sophisticated theoretical analysis of gendercide to in depth treatments of such topics as the Rwandan genocide of 1994 the gendercidal oppression of young

African American males the predicament of gays and lesbians in the face of increasing biotechnological manipulation of human behavior and the psychology of shame and humiliation underlying gendercide against both sexes Still other articles take issue with Jones's theories of gendercide or explore how human rights organizations have defined documented and responded to gendercide and other sex specific atrocities A closing essay considers the relevance of feminist and men's studies literatures for the study of gendercide

**Framing War and Genocide** Gregory Kent, 2006 Although just a decade ago the destruction of a European state and society through war and genocide remains one of the worst global crises of the post Cold War era with reverberations still felt today Bombardment and sieges of major towns and cities concentration and death camps and the mass slaughter and expulsion of civilians were all characteristics of a type of warfare that Europe had never dreamed might return The war against Bosnia had a major impact on European and wider global consciousness being as it was then the most reported debated and analyzed conflict to date But despite the extensive coverage of Bosnia the author contends the conflict and its origins were certainly misunderstood there being a significant gulf between media perspectives and the thrust of academic discourse This multidisciplinary book is based on extensive research into the TV and newspaper framing of the war during the critical early period of its development Uniquely the analysis of media is underpinned by an extensive and detailed historical argument about the nature of the wars and the politics of the Federation including the use of media in war making strategies in Yugoslavia itself It will be of interest to scholars of IR and politics media communication and journalism studies and war and genocide studies Journalists and the general reader will find the book accessible with valuable insights into reporting war and understanding media representation of conflict Key issues and questions addressed include the critical use of official sources and propaganda in journalism how media and policymakers interact to define and frame problems for policy action what factors limit the accurate reporting of war what is genocide and how is the Genocide Convention relevant in practice and how to report genocide when such coverage conflicts with state interests

**Facing My Lai** David L. Anderson, 1998 But these questions are asked again in the hope that they might lead to a better understanding of what My Lai means for us now

**Research of Genocide Victims with a Special Emphasis on Bosnia and Herzegovina** Smail Čekić, 2009

**Antisemitism** Michael Fineberg, Shimon Samuels, Mark Weitzman, 2007 Dedicated to the memory of the conscience of the Holocaust Simon Wiesenthal to whom it offers a number of personal tributes this book brings together essays by a wide variety of authors on antisemitism and related forms of intolerance racism and xenophobia Starting from the idea that antisemitism constitutes a paradigm case of collective and individual hatred the book examines some of the reasons why it has prospered over the ages and persists in our time even after well nigh universal condemnation of the Holocaust Some authors see it as a virus always ready to develop and spread wherever Jewish difference is resented Others emphasize that the antisemitic myths are not grounded in reality but depend rather on a

fabrication an imagined being to whom every kind of vice and perversion can be attributed Jews Gypsies Kurds Armenians Tutsis they can all be made to fit the bill Simon Wiesenthal believed not in vengeance but in justice for the victims and played a pre eminent and at times lonely role in tracking down individual criminals and bringing them to trial But he knew that was not enough The contributors to this memorial volume representing a range of cultural religious and disciplinary perspectives share that view They know that so long as the Jewish stereotype is vested with legitimacy the fight against antisemitism can never be won Nor can it be defeated so long as it is fuelled by crisis in the Middle East which has allowed some people to give expression to their antisemitism while denying it by treating the State of Israel not as a state with its own particular problems and shortcomings but as a kind of reified Jew These are some of the issues addressed by the authors and essays presented along with others such as antisemitism as a determinant of Jewish identity and the possibility of forgiveness for the perpetrators of genocide The book thus seeks to understand and learn from this particular paradigm of hatred and to suggest ways of countering it in the name of the core values of a common humanity Winner of the 2007 National Jewish Book Awards in the category of Anthology

**The Future of Knowledge & Culture** Vinay Lal, Ashis Nandy, 2005 The Twentieth Century Was For The Most Part An Unfolding Of The Nineteenth But The Twenty First Century Is A Time Of Open Ended Transition This Remarkable Book Attempts To Provide A Cartography Of The Contemporary Global Framework Of Knowledge And Culture That Can Tell Us Where We Ve Arrived In The New Millennium And Where We Are Headed It Is Organized Around Some Of The Ideas Products And Practices That Constitute Everyday Life The Future Of Knowledge And Culture Is A Dictionary That Defies The Grid Of Conventionality It Invites The Reader To Debate And Exchange Ideas With Some Of The Most Daring Thinkers In The World From Gustavo Esteva The Scholar Activist Associated With The Zapatistas Writing On Grass Roots To Ziauddin Sardar Historian Of Science And Islamic Scholar Exploring The Internet From Douglas Lummis Radically Rethinking Existing Definitions Of Democracy To Manu Kothari And Lopa Mehta Taking On Modern Medical Wisdom To Celebrate The Wisdom Of The Body And Majid Rahnema Who Stands The Conventional Idea Of Poverty On Its Head Nothing Is Beyond The Scope Of This Dictionary From Weapons Of Mass Destruction To Plague Sacred Groves To The Philosophy Of Coca Cola Spin Doctors To Maps Bollywood To Coronary Bypass The Sixty Five Entries Seem To Cover Only A Cross Section Of Life But Their Concern Is Nothing Less Than Altering An Entire Way Of Thinking That Has Become Ingrained In Us Thanks To Our Education Upbringing Lazy Habits Of Thought And Fear Of Scepticism This Book Challenges Us To Rethink The World Of The Urban Middle Class Certainties Suggesting That An Open Spirit And The Ability To Live In Multiple Often Contradictory Worlds May Be The Key To Our Survival In The New Century
