The German NOVELLE

PRINCETON LEGACY LIBRARY

The German Novelle

William Henry Goodyear

The German Novelle:

The German Novelle Martin Swales, 2019-04-23 Martin Swales explores the interrelation in the novelle of aesthetic theory and textual practice suggesting that the characteristic mode of the novelle is a specific kind of narrative constellation advocated by theoreticians and practiced by writers The author's theory not only serves to illuminate our understanding of the novelle but also advances our knowledge of genre theory Swales analyzes theoretical writings as if they themselves are literary texts that reflect the age in which they were written By considering them in relation to seven principal topics he shows how they share a central concern with cases that are exceptions to the normal social order The response of each author implies the reluctance of society to have its premises called into question and to adjust in such a way as to accommodate these cases Swales applies this theory to seven nineteenth century novellen Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The German Novel* Roy Pascal, 1956 *The Cambridge Companion to the Modern German Novel* Graham Bartram, 2004-04-05 The Cambridge Companion to the Modern German Novel first published in 2004 provides a broad ranging introduction to the major trends in the development of the German novel from the 1890s to the present Written by an international team of experts it encompasses both modernist and realist traditions and also includes a look back to the roots of the modern novel in the Bildungsroman of the late eighteenth and nineteenth centuries The structure is broadly chronological but thematically focused chapters examine topics such as gender anxiety images of the city war and women's writing within each chapter key works are selected for close attention Unique in its combination of breadth of coverage and detailed analysis of individual works and featuring a chronology and guides to further reading this Companion will be indispensable to students and teachers *The Legacy of Roman Law in the German Romantic Era* James Q. Whitman, 2014-07-14 Well after the process of codification had begun elsewhere in nineteenth century Europe ancient Roman law remained in use in Germany expounded by brilliant scholars and applied in both urban and rural courts The survival of this flourishing Roman legal culture into the industrial era is a familiar fact but until now little effort has been made to explain it outside the province of specialized legal history James Whitman seeks to remedy this neglect by exploring the broad political and cultural significance of German Roman law emphasizing the hope on the part of German Roman lawyers that they could in some measure revive the Roman social order in their own society Discussing the background of Romantic era law in the law of the Reformation Whitman makes the great German tradition of legal scholarship more accessible to all those interested in German history Drawing on treatises already known to legal historians as well as on previously

unexploited records of legal practice Whitman traces the traditions that allowed nineteenth century German lawyers like Savigny to present themselves as uniquely impartial and unpolitical This book will be of particular interest to students of the many German thinkers who were trained as Roman lawyers among them Marx and Weber Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Encyclopedia of the Novel Peter Melville Logan, Olakunle George, Susan Hegeman, Efraim Kristal, 2014-02-11 Now available in a single volume paperback this advanced reference resource for the novel and novel theory offers authoritative accounts of the history terminology and genre of the novel in over 140 articles of 500 7 000 words Entries explore the history and tradition of the novel in different areas of the world formal elements of the novel story plot character narrator technical aspects of the genre such as realism narrative structure and style subgenres including the bildungsroman and the graphic novel theoretical problems such as definitions of the novel book history and the novel's relationship to other arts and disciplines The Encyclopedia is arranged in A Z format and features entries from an international cast of over 140 scholars overseen by an advisory board of 37 leading specialists in the field making this the most authoritative reference resource available on the novel This essential reference now available in an easy to use fully indexed single volume paperback will be a vital addition to the libraries of literature students and scholars everywhere
