Hiking New Mexico's Gila Wilderness Bill Cunningham, Polly Cunningham, 2017-10-01 New Mexico's 555 000 acre Gila Wilderness is a vast untrammelled patchwork of virtually unlimited forest types climatic conditions and wildlife

Stealing the Gila David H. DeJong, 2016-09-15 By 1850 the Pima Indians of central Arizona had developed a strong and sustainable agricultural economy based on irrigation As David H DeJong demonstrates the Pima were an economic force in the mid nineteenth century middle Gila River valley producing food and fiber crops for western military expeditions and immigrants Moreover crops from their fields provided an additional source of food for the Mexican military presidio in Tucson as well as the U S mining districts centered near Prescott For a brief period of about three decades the Pima were on an equal economic footing with their non Indian neighbors This economic vitality did not last however As immigrants settled upstream from the Pima villages they deprived the Indians of the water they needed to sustain their economy DeJong traces federal territorial and state policies that ignored Pima water rights even though some policies appeared to encourage Indian agriculture This is a particularly egregious example of a common story in the West the flagrant local rejection of Supreme Court rulings that protected Indian water rights With plentiful maps tables and illustrations DeJong demonstrates that maintaining the spreading farms and growing towns of the increasingly white population led Congress and other government agencies to willfully deny Pimas their water rights Had their rights been protected DeJong argues Pimas would have had an economy rivaling the local and national economies of the time Instead of succeeding the Pima were reduced to cycles of poverty their lives destroyed by greed and disrespect for the law as well as legal decisions made for personal gain
