The Lost Colonies of Ancient America Frank

Joseph,2013-10-21 Was America truly unknown to the outside world until Christopher Columbus discovered it in 1492 Could a people gifted enough to raise the Great Pyramid more than 4 000 years ago have lacked the skills necessary to build a ship capable of crossing the Atlantic Did the Phoenicians who circumnavigated the African continent in 600 bc never consider sailing farther Were the Vikings the most fearless warriors and seafarers of all time terrified at the prospect of a transoceanic voyage If so how are we to account for an Egyptian temple accidentally unearthed by Tennessee Valley Authority workers in 1935 What is a beautifully crafted metal plate with the image of a Phoenician woman doing in the Utah desert And who can explain the discovery of Viking houses and wharves excavated outside of Boston These enigmas are but a tiny fraction of the abundant physical proof for Old World visitors to our continent hundreds and thousands of years ago In addition Sumerians Minoans Romans Celts ancient Hebrews Indonesians Africans Chinese Japanese Welsh Irish and the Knights Templar all made their indelible if neglected mark on our land

Visual Culture of the Ancient Americas Esther Pasztory,2017-01-26 In the past fifty years the study of indigenous and pre Columbian art has evolved from a groundbreaking area of inquiry in the mid 1960s to an established field

of research This period also spans the career of art historian Esther Pasztory Few scholars have made such a broad and lasting impact as Pasztory both in terms of our understanding of specific facets of ancient American art as well as in our appreciation of the evolving analytical tendencies related to the broader field of study as it developed and matured The essays collected in this volume reflect scholarly rigor and new perspectives on ancient American art and are contributed by many of Pasztory's former students and colleagues A testament to the sheer breadth of Pasztory's accomplishments *Visual Culture of the Ancient Americas* covers a wide range of topics from Aztec picture writing to nineteenth century European scientific illustration of Andean sites in Peru The essays written by both established and rising scholars from across the field focus on three areas the ancient Andes including its representation by European explorers and scholars of the nineteenth century Classic period Mesoamerica and its uses within the cultural heritage debate of the twentieth and twenty first centuries and Postclassic Mesoamerica particularly the deeper and heretofore often hidden meanings of its cultural production Figures maps and color plates demonstrate the vibrancy and continued allure of indigenous artworks from the ancient Americas Pre Columbian art can give more Pasztory declares and the scholars featured here make a compelling case for its incorporation into art theory as a whole The result is a collection of essays that celebrates Pasztory's central role in the development of the field of Ancient American visual studies even as it looks toward the future of the discipline
