The Goldwyn Follies:

The Goldwyn Follies Ben Hecht, George Marshall, 1937 **Balanchine and Kirstein's American Enterprise** James Steichen, 2019 Challenging the mythologies surrounding the early years of the Balanchine Kirstein enterprise this book weaves a new and definitive account of a crucial period in dance history *Harnessing the Technicolor Rainbow* Scott Higgins, 2009-02-17 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film s imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema **The Search for Sam Goldwyn** Carol Easton, 2014-05-05 Sam Goldwyn s career spanned almost the entire history of Hollywood He made his first film *The Squaw Man* in 1913 and he died in 1974 at the age of ninety one In the many years between he produced an enormous number of films including such classics as *Wuthering Heights* *Street Scene* *Arrowsmith* *Dodsworth* *The Little Foxes* and *The Best Years of Our Lives* and worked with many luminaries Gary Cooper Ronald Colman Laurence Olivier George Balanchine Lillian Hellman Howard Hawks John Ford Eddie Cantor Busby Berkeley Danny Kaye Merle Oberon and Bob Hope among them When Samuel Goldfish was born in the Warsaw ghetto he was penniless when Sam Goldwyn died in Los Angeles he was worth an estimated 19 million *The Search for Sam Goldwyn* locates the real Sam Goldwyn and shatters the hostile conspiracy of silence that protected his legend In writing Goldwyn s story Carol Easton has given us a fine examination of the civilization known as Hollywood and how Goldwyn himself shaped that culture **Box Office** ,1938 *Dictionary Catalog of the Dance Collection* New York Public Library.
